Russomania Rebecca Beasley,2020-03-31 Russomania Russian Culture and the Creation of British Modernism provides a new account of modernist literature s emergence in Britain British writers played a central role in the dissemination of Russian literature and culture during the early twentieth century and their writing was transformed by the encounter This study restores the thick history of that moment by analyzing networks of dissemination and reception to recover the role of neglected as well as canonical figures and institutions as well as individuals The dominant account of British modernism privileges a Francophile genealogy but the turn of the century debate about the future of British writing was a triangular debate a debate not only between French and English models but between French English and Russian models Francophile modernists associated Russian literature especially the Tolstoyan novel with an uncritical immersion in life at the expense of a mastery of style and while individual works might be admired Russian literature as a whole was represented as a dangerous model for British writing This supposed danger was closely bound up with the politics of the period and this book investigates how Russian culture was deployed in the close relationships between writers editors and politicians who made up the early twentieth century intellectual class the British intelligentsia

Russomania argues that the most significant impact of Russian culture is not to be found in stylistic borrowings between canonical authors but in the shaping of the major intellectual questions of the period the relation between language and action writer and audience and the work of art and lived experience The resulting account brings an occluded genealogy of early modernism to the fore with a different arrangement of protagonists different critical values and stronger lines of connection to the realist experiments of the Victorian past and the anti formalism and revived romanticism of the 1930s and 1940s future

Modernist Writers and the Marketplace Warren Chernaik,Warwick Gould,Ian Willison,1996-06-12 Modernist Writers and the Marketplace is a new research level collection devoted to an exciting area in the history of the book Focusing on Henry James W B Yeats Joseph Conrad D H Lawrence Virginia Woolf T S Eliot James Joyce Ezra Pound Wyndham Lewis and the culture of the little magazine of the period eleven contributors from six countries demonstrate new developments in the sociology of texts the practice of literary biography and textual criticism

The Prefaces Henry James,2024-03-28 The Cambridge Edition of the Complete Fiction of Henry James provides for the first time a scholarly edition of a major writer whose work continues to be read quoted adapted and studied James wrote the eighteen Prefaces

included in this volume to accompany the revised selective New York Edition of his novels and tales 1907 9 They are unique and various writings at once a digest of James's critical principles an unsystematic treatise on fiction theory an account of his rereading and revision of his own work an oblique autobiography of the writing life and a public performance of authorial identity This is the first scholarly edition of the Prefaces and includes a detailed contextual introduction a full textual history and extensive explanatory notes It will be of value to researchers scholars and advanced students of Henry James and of 19th and 20th century British and American literature and book history *Ford Madox Ford* Andrzej Gąsiorek, Daniel Thomas Moore, 2008 The controversial British writer Ford Madox Ford 1873 1939 is increasingly recognized as a major presence in early twentieth century literature This series of International Ford Madox Ford Studies was founded to reflect the recent resurgence of interest in him Each volume is based upon a particular theme or issue and relates aspects of Ford's work life and contacts to broader concerns of his time The present book is part of a large scale reassessment of his roles in literary history Ford is best known for his fiction especially *The Good Soldier* long considered a modernist masterpiece and *Parade's End* which Anthony Burgess described as the finest novel about the First World War and Samuel Hynes has called the greatest war novel ever written by an Englishman In these as in most of his books Ford renders and analyses the crucial transformations in modern society and culture One of the most striking features of his career is his close involvement with so many of the major international literary groupings of his time In the South East of England at the fin de siècle he collaborated for a decade with Joseph Conrad and befriended Henry James and H G Wells In Edwardian London he founded the English Review publishing these writers alongside his new discoveries Ezra Pound D H Lawrence and Wyndham Lewis After the war he moved to France founding the transatlantic review in Paris taking on Hemingway as a sub editor discovering another generation of Modernists such as Jean Rhys and Basil Bunting and publishing them alongside Joyce and Gertrude Stein Besides his role as contributor and enabler to various versions of Modernism Ford was also one of its most entertaining chroniclers This volume includes twelve new essays on Ford's engagement with the literary networks and cultural shifts of his era by leading experts and younger scholars of Ford and Modernism Two of the essays are by well known creative writers the novelist Colm Tóibín and the novelist and cultural commentator Zinovy Zinik **An Eye for Genius** Kerry Sutherland, A middle aged author declining in popularity An up and coming literary agent with an eye for genius A partnership that would forge a prodigious legacy in American literature Henry James was a middle aged author who had established himself on a transatlantic scale when he employed James Brand Pinker as his literary agent in 1898 The changing preferences of a growing audience of readers along with James's self defeating practice of shifting from publisher to publisher rather than adhering to the trade courtesy of remaining loyal to one house were making the author's efforts to keep his work in print increasingly difficult bringing Pinker who managed the literary business of over 100 authors including Stephen Crane H G Wells Joseph Conrad and Jack London into the picture made it possible for James to maintain a presence before the reading

public to an extent that would have been impossible without the agent's assistance. Pinker's involvement was vital to the continuance of James's career as his later works and the New York Edition proved difficult material to place. The agent's role as the mediator of conflict between the commercial writer and literary artist positions that James had difficulty reconciling had considerable influence on the shape of James's later career and thus the way in which the author is remembered. James's legacy is therefore clearly tied to Pinker's efforts. Using correspondence between Pinker, James, and the primary publishers of James's material from 1898 until Pinker's death in 1922, along with secondary works addressing the agent's endeavors during this period, this volume demonstrates the link between Pinker's work and James's continued presence in print both during the author's lifetime and after his death.
