The Little Devil English Edition:

A Short Version in English, of "The Little Devil" Miriam Shomer Zunser, 192? **Global Children's Literature in the College Classroom** Sara Austin, Tanja Nathanael, 2023-05-22 Global Children's Literature in the College Classroom explores the importance of children's literature as a pedagogical resource in any college course. It can be used to introduce a complex topic, give students a glimpse into a specific culture, or expand the way students think about education and teaching. Global children's literature is particularly useful in language classrooms, education programs, and classes that discuss globalism and colonialism. This book includes fifteen essays representing fifteen countries and eight languages, divided into four sections. The first section of essays, *Across the University*, looks at children's literature in non-traditional settings, including British literature and multicultural studies, which considers what children's literature specifically brings to these courses. The second section, *Borders and Crossings*, examines how children's literature defines or defies political and cultural separations. The third section, *Childhood Studies and Education*, considers the importance of global children's literature in education classrooms as a way of promoting diversity and inclusion. The fourth section, *Non-English Texts and Texts in Translation*, focuses on the use of children's literature to teach language and folklore traditions in France, Russia, and Italy. The essay that closes this section discusses using children's literature to teach translation skills at the University of Taipei. **The New Age**, 1928 **Notes and Queries**, 1900 Text John Mowitt, 1992 The concept of textuality in recent decades has come to designate a fundamentally contested terrain within a number of academic disciplines. How it came to occupy this position is the subject of John Mowitt's book, a critical genealogy of the social and intellectual conditions that contributed to the emergence of the textual object. Beginning with the *Tel Quel* group in France in the sixties and seventies, Mowitt's study details how a certain interdisciplinary crisis prompted academics to rethink the conditions of cultural interpretation. Concentrating on three disciplinary projects—literary analysis, film studies, and musicology—Mowitt shows how textuality's emergence called into question not merely the relations among these disciplines but also the cultural logic of disciplinary reason as such. At once an effort to define the text and to explore and extend the theory of textuality, this book illustrates why the notion of interdisciplinary research has recently acquired such urgency. At the same time, by emphasizing the genealogical dimension of the textual object, Mowitt raises the issues of its antidisciplinary character and, by extension, its immediate pertinence for the current debates over multiculturalism and Eurocentrism. Innovative, historically astute, and theoretically informed, this important book will be indispensable reading for all scholars in literary and cultural studies. **The English Catalogue of Books ...: 1801-1836.
