Manhattan William Helmreich played a game with his father they called Last Stop They would pick a subway line and ride it to its final destination and explore the neighborhood there Decades later Helmreich teaches university courses about New York and his love for exploring the city is as strong as ever Putting his feet to the test he decided that the only way to truly understand New York was to walk virtually every block of all five boroughs an astonishing 6 000 miles His epic journey lasted four years and took him to every corner of Manhattan Brooklyn Queens the Bronx and Staten Island Helmreich spoke with hundreds of New Yorkers from every part of the globe and from every walk of life including Mayor Michael Bloomberg and former mayors Rudolph Giuliani David Dinkins and Edward Koch Their stories and his are the subject of this captivating and highly original book We meet the Guyanese immigrant who grows beautiful flowers outside his modest Queens residence in order to always remember the homeland he left behind the Brooklyn raised grandchild of Italian immigrants who illuminates a window of his brownstone with the family's old neon grocery store sign and many many others Helmreich draws on firsthand insights to examine essential aspects of urban social life such as ethnicity gentrification and the use of space He finds that to be a New Yorker is to struggle to understand the place and to make a life that is as highly local as it is dynamically cosmopolitan Publisher's description **The Model Man** Hans Krabbendam, 2022-06-08 Edward William Bok was the most famous Dutch American in early twentieth century America thanks to his thirty year editorship of the *Ladies*

Frey,2009-02-06 Since colonial times two discernable schools have debated major issues of economic morality in America The central norm of one morality is the

freedom or autonomy of the individual and defines virtues vices obligations and rights by how they contribute to that freedom. The other morality is relational and defines economic ethics in terms of behaviors mandated by human connectedness. America's Economic Moralists shows how each morality has been composed of an ethical outlook paired with a compatible economic theory each supporting the other. Donald E. Frey adopts a multidisciplinary approach not only drawing upon historical economic thought, American religious thought and ethics but also finding threads of economic morality in novels, government policies and popular writings. He uses the history of these two supported yet very different views to explain the culture of excess that permeates the morality of today's economic landscape. Youth's Companion, 1928
