

BUSINESS MATH FORMULAS

BASIC FORMULAE & DEFINITIONS FOR AN INTRODUCTORY COURSE IN BUSINESS MATHEMATICS

MARKUP & MARKDOWN

Markup: Amount required to cover operating expenses and make a profit

- cost of goods is what the retailer pays the supplier or manufacturer for goods
- selling price of goods is what the customer pays the retailer for goods (i.e., the buyer's purchasing price)
- cost + markup = selling price
- markup (or margin) = selling price - cost

Markup Based on Cost

- percent markup on cost = $\frac{\text{markup}}{\text{cost}}$
- percent markup on cost = $\frac{\text{percent markup}}{100} \times \text{selling price} \div (1 - \text{percent markup on selling price})$

Markup Based on Selling Price

- percent markup on selling price = $\frac{\text{markup}}{\text{selling price}}$
- percent markup on selling price = $\frac{\text{percent markup}}{100} \times \text{selling price} \div (1 + \text{percent markup on cost})$

Markdown

- markdown = original selling price - marked down price
- markdown percent = $\frac{\text{markdown}}{\text{original selling price}} \times 100$
- markdown = $\text{markdown percent} \times \text{original selling price}$

Pricing Perishable Units of Goods

- selling price per unit = $\frac{\text{total cost of all units} - \text{percent markup on cost (total cost of all units)}}{\text{total units} - \text{total spoiled units}}$

DISCOUNTS

Discount: Reduction to a basic price

Trade Discounts: Discounts given to partners in the distribution channel of goods; also called **functional discounts**, and are given to distribution channel members to perform specific tasks

- net price = list price - trade discount amount

Cash Discount: Discounts given to customers for paying with cash; cash discount is also called **sales discount by seller or purchase discount by buyer**

- cash discount = $\text{selling price (or invoice amount)} \times \text{cash discount rate}$
- amount buyer pays = $\text{selling price} - \text{cash discount}$

Terms: Cash discount rate is usually stated in credit terms; credit term 2/10 on an invoice means that a 2% cash discount is allowed if the payment is made within 10 days of the date of the invoice; cash discount period can also begin when the buyer receives the goods (ROG = receipt of goods)

PAYROLL

Pay Based on Hourly Wages: Pay is based on hours of work done

- gross pay = $(\text{number of regular hours} \times \text{regular hourly rate}) + (\text{number of overtime hours} \times \text{overtime hourly rate})$

Pay Based on Piece Work: Pay is based on acceptable pieces of work produced

- gross pay = $\text{total number of acceptable pieces produced} \times \text{piece work rate}$

Pay Based on Commission: Commission is a percentage of sales; usually paid to the person generating the sales

- gross pay = $\text{commission} = \text{sales} \times \text{commission rate}$

INTEREST

Exact Number of Days: Interest is calculated over a time period, from when a loan is given to the end date; day the loan is due may or may not be included in the period

- To determine loan period, the actual number of days in each month should be known

Tip: 30 days hath September, April, June, and November; all the rest have 31, excepting February alone, which hath but 28, in fine, till leap year gives it 29.

- Leap years are divisible by 4, which is why 2004 was a leap year and also why an extra day is added to February in every leap year

Simple Interest: Time is expressed in the same units as the rate; if r is an annual rate, then t is in years

- simple interest (I) = $\text{principal } (p) \times \text{rate in percent } (r) \times \text{time } (t)$

- maturity value = $\text{principal} + \text{interest}$

p is principal is the loan (or borrowed) amount or invested amount (face value); I is the amount of interest paid for the loan or earned on the investment; r is the percent rate of interest paid for the use of someone else's money or earned for lending the money

- exact interest: $\text{time} = t = \frac{\text{exact number of days}}{365}$

- ordinary interest (Banker's Rule): $\text{time} = t = \frac{\text{exact number of days}}{360}$

Partial Payment Rule: Any partial loan payment is first used to pay the interest that has accrued (total interest to date), and the remainder is used to reduce the principal of the loan

Compound Interest: Interest that is paid on both the principal and the interest accumulated from past periods; interest gained is added to the original investment

- maturity value = $p \times (1 + i)^n$

- where p = principal; i = interest rate in percent per period; n = number of periods

- alternative formula: maturity value (future value) = $p \times (1 + r/n)^{nt}$

- where t = time in years; n = number of periods per year; r = interest rate in percent per year

compounding period is	interest is calculated every	n
annual	year	1
semi-annual	six months	2
quarter	three months	4
month	month	12
day	day	365

Present & Future Value

- present value (PV) = value of the loan or investment today

- future value (FV) or maturity value = final amount of the loan or investment at the end of the last period

Simple Interest Future Value

- $FV = PV \times [1 + (I \times n)]$

- where I = interest rate per period; n = number of periods

Compound Interest Future Value

- $FV = PV \times (1 + i)^n$

- where i = interest rate in percent per period; n = number of periods

Interest Earned = $FV - PV$

DEPRECIATION

Depreciation: Loss in value of tangible business assets or property (excluding land) over its useful life due to deterioration, obsolescence, etc.; also called **depreciation expense**; periodically charged to operating expenses; total depreciation limited to cost of property

- accumulated depreciation = total amount of depreciation to date

- cost of asset = cost paid for asset, including freight

- book value of asset = $\text{cost of asset} - \text{accumulated depreciation}$

- residual value (or salvage value, scrap value) = cash value of asset at end of useful life

Straight Line Method: Depreciation expense is equal over each year of its useful life

- depreciation expense per year = $\frac{\text{asset cost} - \text{residual value}}{\text{estimated useful life of asset in years}}$

- partial-year depreciation expense = $\text{depreciation expense per year} \times \text{number of months of useful life in the year} \div 12$

Units of Production Method: Depreciation expense based on the usage of the asset

- depreciation rate per unit = $\frac{\text{asset cost} - \text{residual value}}{\text{estimated total number of units produced over useful life of asset}}$

Study Guide For Business Math

Study Guide For Business Math Introduction

Study Guide For Business Math Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Study Guide For Business Math Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Study Guide For Business Math : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Study Guide For Business Math : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Study Guide For Business Math Offers a diverse range of free eBooks across various genres. Study Guide For Business Math Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Study Guide For Business Math Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Study Guide For Business Math, especially related to Study Guide For Business Math, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Study Guide For Business Math, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Study Guide For Business Math books or magazines might include. Look for these in online stores or libraries. Remember that while Study Guide For Business Math, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Study Guide For Business Math eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Study Guide For Business Math full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Study Guide For Business Math eBooks, including some popular titles.

FAQs About Study Guide For Business Math Books

What is a Study Guide For Business Math PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Study Guide For Business Math PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF.

How do I edit a Study Guide For Business Math PDF? Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Study Guide For Business Math PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Study Guide For Business Math PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
