Individuals with Disabilities Education Improvement Act (IDEA)

(Ans- Originally passed by Congress in 1975 and reauthorized several times, most recently in 2004, the IDEA specifies the procedures for insuring that all children with disabilities receives a free appropriate education in the least restrictive environment possible. It also includes requirements for parental involvement and due process procedures when parents or guardians disagree with a school's decision regarding their child.

Individualized Education Program (IEP)

(Ans- The federal special education law (IDEA) requires that an IEP be developed by a team for each student receiving special education services. The IEP must contain a statement of the student's present levels of educational performance, annual goals related to areas of deficit, short-term objective describing the intermediate steps to the annual goals, criteria and procedures for determining the achievement of the objectives, and educational services to be provided to the student. Any changes to a student's IEP must be agreed upon by the entire IEP team. Changes cannot be made unilaterally by one individual.

Individualized Family Service Plan (IFSP)

(Ans- A plan, similar to an IEP, by designed for young children (under 3 years of age) and their families. An IFSP is somewhat broader than an IEP in that it also specifies services and resource to be provided to the entire family in support of the child with disabilities.

Least Restrictive Environment (LRE)

(Ans- A legal term from the IDEA that specifies that students with disabilities must be educated as close to the same environment as their typical (nondisabled) peers. It is this provision on which inclusion is based.

**Geriatric Psychiatry Review and Exam Preparation Guide** Mark Rapoport, Andrew Wiens, Dallas Seitz, Evan Lilly, 2017-01-06 Geriatric psychiatry is a relatively young discipline within the field of North American psychiatry. The development of a workforce to meet the needs of an aging population has been identified as an urgent priority, but there is still much we don't know about fulfilling the mental health needs of older adults. For Mark J. Rapoport, geriatric psychiatrists must assess and treat patients today in face of the limitations of what we know but also be armed with enthusiasm to create novel ways of impacting on the quality of life of older patients with mental illness. The chapters in this book include case scenarios, concise point-form summaries of diagnostic and treatment approaches, up-to-date evidence syntheses, discussions of controversies, and a series of practical and thought-provoking questions and answers. Geriatric Psychiatry is a succinct and advanced review of geriatric psychiatry that will help clinicians improve the psychiatric care of an aging population.
