Want to learn the quickest, easiest, and most efficient way to learn a language to fluency? Don't waste any more time and money with classes, textbooks, audio courses, computer programs, and other materials until you have read this. Coming from 10 years of experience and having already shown thousands of language learners the right way to learn languages, read on to learn the secrets they don't give you in class. Life is good for me. I am fluent in several languages and conversational in many more. I have friends I speak to on a daily basis who don't speak a word of English. My language ability has opened career doors and made immediate friends out of strangers. Better yet, I receive enjoyment out of using my languages daily in meeting people, watching movies, and reading my favorite books. How was I able to learn a foreign language so fluently in such a short period of time? Let me give you a hint: it's not because I'm a genius, spend 10 hours a day studying, or have some gift for learning languages. It's because I developed a METHOD that will allow you to IMMEDIATELY learn new words and phrases quicker than you ever have before and not worry about forgetting them. Speak without a single error. Natives will be scratching their heads wondering why you speak so much better than the other foreigners. Be able to study the language without getting bored ever. No more painful language learning. Become fluent quicker than anyone you know. I'm sure you know of people who have studied a language for a couple or more years. Now you can be fluent well within that time. Surprisingly, the best, easiest, and quickest way to learn a language is not written in those textbooks, audio programs, computer programs, or other materials. In fact, most of the time they advocate a painful, hard way to get to fluency. What I've learned in the past 10 years is it doesn't have to be painful or long. This isn't to say those materials are completely useless, but if you want to gain from them as quickly and efficiently as possible, you need to incorporate them into a larger plan. I wrote this book to stop others from making the same mistakes I did when I started to learn languages. I wrote it to show the fastest, quickest, and most efficient way to learn languages so that you don't waste a single minute or
