 projects have been run for many years and their clinical effectiveness has been proven With the availability of bandwidth
 affordable high definition hardware and highly flexible workflow aware software now is the time for telehealth to become a
 standard way of delivering healthcare Many practices are aware of the upcoming changes but are not prepared for them
 Others have experimented and given up because they ve not been able to make the transition sustainable Information about
 how to introduce video consultations is confusing and often focuses on technology and doesn t consider how to change
 behaviour and make the new service work financially There is no current step by step book available that provides answers to
