Congressional Voting Guide, 1992 A guide to the voting records of the 102nd Congress on the key measures and amendments of the decade 1982 1992 compiling House and Senate voting measures voting records percentage evaluations indicating the degree to which each member voted with the President precise text amendments and brief profiles of each member of Congress **Congressional Voting Guide** Victor W. Bosnich, 1994 Souled Out E. J. Dionne Jr., 2009-10-12 The religious and political winds are changing Tens of millions of religious Americans are reclaiming faith from those who would abuse it for narrow partisan and ideological purposes And more and more secular Americans are discovering common ground with believers on the great issues of social justice peace and the environment In Souled Out award winning journalist and commentator E J Dionne explains why the era of the Religious Right and the crude exploitation of faith for political advantage is over Based on years of research and writing Souled Out shows that the end of the Religious Right doesn't signal the decline of evangelical Christianity but rather its disentanglement from a political machine that sold it out to a narrow electoral agenda of such causes as opposition to gay marriage and abortion With insightful portraits of leading contemporary religious figures from Rick Warren and Richard Cizik to John Paul II and Benedict XVI Dionne shows that our great religions have always preached a broad message of hope for more just human arrangements and refused to be mere props for the powers that be Dionne also argues that the new atheist writers should be seen as a gift to believers a demand that they live up to their proclaimed values and embrace scientific and philosophical inquiry in a spirit of intellectual solidarity Written in the tradition of Reinhold and H Richard Niebuhr Souled Out will help change how we think and talk about religion and politics in the post Bush era The Texas Experiment William V. Reforming Legislatures Peverill Squire, 2024-06-26 Winner of the 2025 Virginia Gray Book Award APSA Section 22 State Politics and Policy Legislatures are ubiquitous in the American political experience First created in Virginia in 1619 they have existed continuously ever since Indeed they were established in even the most unlikely of places notably in sparsely populated frontier settlements and functioned as the focal point of every governing system devised Despite the ubiquity of state legislatures we know remarkably little about how Americans have viewed them as organizations in terms of their structures rules and procedures But with the rise of modern public opinion surveys in the twentieth century we now have extensive data on how Americans have gauged legislative performance throughout the many years That said the responses to the questions pollsters typically pose reflect partisanship policy and personality Generally respondents respond favorably to legislatures controlled by their own political party and those in power during good economic times Incumbent lawmakers get ratings boosts from having personalities home styles that mesh with those of their constituents These relationships are important indicators of people's thoughts regarding the current performance of their legislatures and legislators but they tell us nothing about attitudes toward the institution and its organizational characteristics This study offers a unique perspective on what American voters have historically thought about legislatures as organizations and legislators as representatives Rather than focusing on responses to surveys that ask respondents how they rate the current performance of lawmakers and legislatures this study leverages the most significant difference between national and state politics the existence of ballot propositions in the latter At the national level Americans have never had any say over Congress's structure rules or procedures In contrast at the state level they have had ample opportunities over the course of more than two centuries to shape their state legislatures The data examined here look at how people have voted on more than 1 500 state ballot propositions targeting a wide array of legislative organizational and parliamentary features By linking the votes on these measures with the public debates preceding them this study documents not only how Americans viewed various aspects of their legislatures but also whether their opinions held constant or shifted over time The findings reported paint a more nuanced picture of Americans' attitudes toward legislatures than the prevailing one derived from survey research When presented with legislative reform measures on which concrete choices were offered and decisions on them had to be made the analyses presented here reveal that counter to the conventional wisdom that people loved their representatives but hated the legislature voters usually took charitable positions toward the institution while harboring skeptical attitudes about lawmakers' motives and behaviors

From Bible Belt to Sunbelt: Plain-Folk Religion, Grassroots Politics, and the Rise of Evangelical Conservatism Darren Dochuk, 2010-12-13 A prize winning five decade history of the evangelical movement in Southern California that explains a sweeping realignment of American politics From

Bible Belt to Sun Belt tells the dramatic and largely unknown story of plain folk religious migrants hardworking men and women from Oklahoma Texas and Arkansas who fled the Depression and came to California for military jobs during World War II Investigating this fiercely pious community at a grassroots level Darren Dochuk uses the stories of religious leaders including Billy Graham as well as many colorful lesser known figures to explain how evangelicals organized a powerful political machine This machine made its mark with Barry Goldwater inspired Richard Nixon s Southern Solution and achieved its greatest triumph with the victories of Ronald Reagan Based on entirely new research the manuscript has already won the prestigious Allan Nevins Prize from the Society of American Historians The judges wrote Dochuk offers a rich and multidimensional perspective on the origins of one of the most far ranging developments of the second half of the twentieth century the rise of the New Right and modern conservatism
