La nuit La journaliste Anne Bazin compile les informations recoltées au cours des ges sur le Voyageur Un travail aux implications tellement gigantesques puisqu'il semble bien que le Voyageur existe toujours de nos jours que la jeune femme n'entend pas le plancher craquer derrière elle sous les pas d'un intrus très mal intentionné. Ailleurs Fish et ses compagnons s'apprêtent à disposer des charges explosives sous les fondations du ministère des finances. Terrorisme aveugle. Tout n'est que question de point de vue. Les réflexions sur les musées telles qu'elles se sont développées en Espagne restent largement inconnues en France et dans le contexte francophone. Tout en tentant d'en comprendre les raisons, cet ouvrage propose une synthèse de cette muséologie de son développement et de ses spécificités grâce à une sélection de seize textes traduits pour la première fois en français. Ce faisant, il pose les bases d'une approche la fois comparative et géopolitique de la muséologie. Il réfléchit aux manières dont les spécificités politiques, sociales et culturelles d'un contexte donnent lieu à des conceptions diverses du fait musical, mais aussi aux relations établies entre le centre et les périphéries dans les manières dont se conforme la muséologie en tant que domaine de recherche international et pluridisciplinaire.
