Toontown Players Guide:

A Guide to Designing Curricular Games Janna Jackson Kellinger, 2016-10-19 This book is a guide to designing curricular games to suit the needs of students. It makes connections between video games and time-tested pedagogical techniques such as discovery learning and feedback to improve student engagement and learning. It also examines the social nature of gaming such as techniques for driver navigator partners, small groups, and whole class structures to help make thinking visible. It expands the traditional design process teachers engage in by encouraging use of video game design techniques such as playtesting. The author emphasizes designing curricular games for problem solving and warns against designing games that are simply Alex Trebek host of Jeopardy wearing a mask. By drawing on multiple fields such as systems thinking, design theory, assessment, and curriculum design, this book relies on theory to generate techniques for practice.

Handbook of Research on Educational Communications and Technology David Jonassen, Michael J. Spector, Marcy Driscoll, M. David Merrill, Jeroen van Merriënboer, Marcy P. Driscoll, 2008-09-25 First Published in 2008. Sponsored by the Association of Educational Communication and Technology (AECT), the third edition of this groundbreaking Handbook continues the mission of its predecessors to provide up-to-date summaries and syntheses of recent research pertinent to the educational uses of information and communication technologies. In addition to updating this new edition, it has been expanded from forty-one to fifty-six chapters organized into the following six sections: foundations, strategies, technologies, models, design and development, and methodological issues. In response to feedback from users of the second edition, the following changes have been built into this edition: More Comprehensive topical coverage has been expanded from forty-one to fifty-six chapters and includes many more chapters on technology than in previous editions. Restructured Chapters: this edition features shorter chapters with introductory abstracts, keyword definitions, and extended bibliographies. More International: more than 20% of the contributing authors and one of the volume editors are non-American. Theoretical Focus: Part 1 provides expanded cross-disciplinary theoretical coverage. Methodological Focus: an extended methodological chapter begins with a comprehensive overview of research methods, followed by lengthy separately authored sections devoted to specific methods. Research and Development Focus: another extended chapter with lengthy separately authored sections covers educational technology research and development in different areas of investigation, e.g., experimental methods to determine the effectiveness of instructional designs, technology-based instructional interventions, research on instructional design models.
