The Food Section Kimberly Wilmot Voss, 2014-04-24 Food blogs are everywhere today but for generations information and opinions about food were found in the food sections of newspapers in communities large and small Until the early 1970s these sections were housed in the women s pages of newspapers where women could hold an

authoritative voice The food editors often a mix of trained journalist and home economist reported on everything from nutrition news to features on the new chef in town They wrote recipes and solicited ideas from readers The sections reflected the trends of the time and the cooks of the community The editors were local celebrities judging cooking contests and getting calls at home about how to prepare a Thanksgiving turkey They were consumer advocates and reporters for food safety and nutrition They helped make James Beard and Julia Child household names as the editors wrote about their television appearances and reviewed their cookbooks These food editors laid the foundation for the food community that Nora Ephron described in her classic 1968 essay The Food Establishment and eventually led to the food communities of today Included in the chapters are profiles of such food editors as Jane Nickerson Jeanne Voltz and Ruth Ellen Church who were unheralded pioneers in the field as well as Cecily Brownstone Poppy Cannon and Clementine Paddleford who are well known today an analysis of their work demonstrates changes in the country s culinary history The book concludes with a look at how the women s pages folded at the same time that home economics saw its field transformed and with thoughts about the foundation that these women laid for the food journalism of today

The High-Beta Rich Robert Frank, 2011-11-01 The rich are not only getting richer they are becoming more dangerous Starting in the early 1980s the top one percent 1% broke away from the rest of us to become the most unstable force in the economy An elite that had once been the flat line on the American income charts models of financial propriety suddenly set off on a wild ride of economic binges Not only do they control more than a third of the country s wealth their increasing vulnerability to the booms and busts of the stock market wreak havoc on our consumer economy financial markets communities employment opportunities and government finances Robert Frank s insightful analysis provides the disturbing big picture of high beta wealth His vivid storytelling brings you inside the mortgaged mansions blown up balance sheets repossessed Bentleys and Gulfstreams and wrecked lives and relationships How one couple frittered away a fortune trying to build America s biggest house 90 000 square feet with 23 full bathrooms a 6 000 square foot master suite with a bed on a rotating platform only to be forced to put it on the market because we really need the money Repo men who are now the scavengers of the wealthy picking up private jets helicopters yachts and racehorses the shiny remains of a decade of conspicuous consumption financed with debt asset bubbles liquidity events and soaring stock prices How big money ruins everything for communities such as Aspen Colorado whose over reliance on the rich created a stratified social scene of velvet ropes and A lists and crises in employment opportunities housing and tax revenues Why California s worst budget crisis in history is due in large part to reliance on the volatile incomes of the state s tech tycoons The bitter divorce of a couple who just a few years ago made the Forbes 400 list of the richest people the firing of their enormous household staff of 110 and how one former spouse learned the marvels of shopping at Marshalls filling your own gas tank and flying commercial Robert Frank s stories and analysis brilliantly show that the emergence of the high beta rich is not just a high class problem for the rich High beta wealth has national

consequences America's dependence on the rich great volatility among the rich a more volatile America Cycles of wealth are now much faster and more extreme The rich are a new Potemkin Plutocracy and the important lessons and consequences are brought to light of day in this engrossing book high beta rich hi be ta rich 1 a newly discovered personality type of the America upper class prone to wild swings in wealth 2 the winners and occasional losers in an economy that creates wealth from financial markets asset bubbles and deals 3 derived from the Wall Street term high beta meaning highly volatile or prone to booms and busts 4 an elite that's capable of wreaking havoc on communities jobs government finances and the consumer economy 5 a new Potemkin plutocracy that hides a mountain of debt behind the image of success and is one crisis away from losing their mansions private jets and yachts *A.D.
