Dr. John F. Kershaw, 2023-02-15 The VW Beetle officially the Volkswagen Type 1 needs no introduction Manufactured and
marketed globally by Volkswagen from 1938 to 2003 more than 21 million were produced and sold around the world The car
was extremely popular in the US and Europe during the 1950s and 1960s However increasing competition from Japanese
American and European manufacturers as well as stiffening demands for better safety and emissions contributed to a sharp
decline in sales in the early 1970s The Beetle was manufactured in much smaller numbers in Germany until the late 1970s
when production shifted to Brazil and Mexico where operating cost was a large factor in keeping the Beetle alive While
simple and fun the Beetle had simply become outdated Of course the enthusiast market did not see it that way Aficionados
loved the simplicity in the design as well as its aesthetics and they enjoyed tinkering with the mechanicals of their Beetles
