To Teach William Ayers, 2015-04-24 For those of you pondering the question of whether to teach or not, this book will help you figure out whether teaching is for you. For those of you already in the classroom, it can inspire you to remember why you chose to teach in the first place. From the Afterword by Mike Rose, UCLA Graduate School of Education and Information Studies, *To Teach* is the now classic story of one teacher's odyssey into the ethical and intellectual heart of teaching. For almost two decades, it has inspired teachers across the country to follow their own path, face their own challenges, and become the teachers they long to be. clear that American public education has been under assault for more than the last 30 years So much of this current age of accountability has focused on blame both of teachers and those who prepare them Somehow unlike in other professions declarations were made to the effect that anyone could teach better than teachers including business leaders and people from tony universities without teacher preparation The Age of Accountability scrutinizes the attack on teachers through weaponized data While an effective corporate tool to improve bottom line goals its use in education became more sinister and misanthropic International PISA scores imply the mediocre ability of American students fueling a belief that American education needed more than an upgrade The only answer that would placate many was a complete upheaval a redefinition of a teacher and who should be permitted to become one We teachers ceded authority to these business and legislative forces Their subsequent fervor for testing overwhelmed teaching and drove the joy out of schooling for students It is time for a recounting of what has been done to the profession and to our children Young teachers need encouragement and veteran teachers need reminding of their valiant and effective efforts Perfect for courses such as History of Education Assessment in Teacher Evaluation Value Added Metrics Urban Education University Teacher Preparation Teaching and Learning
