English children's work during the Second World War reveals the remarkable hidden history of children as social agents who actively participated in a national effort during a period of crisis. In praise of the book Hugh Cunningham, celebrated author of *The Invention of Childhood*, wrote: "Think of children and the Second World War and evacuation comes immediately to mind." Berry Mayall and Virginia Morrow have a different story to tell, one in which all the children of the nation were encouraged to contribute to the war effort. Many responded enthusiastically. Evidence from school magazines and oral testimony shows children digging for victory, working on farms, knitting comforts for the troops, collecting waste for recycling, running households. What lessons the authors ask does this wartime participation by children have for our own time? The answers are challenging.

Fatefully, Faithfully Feminist Carlos Monsiváis, 2024-02-25 This critical anthology of writings by Carlos Monsiváis represents a foundational set of texts by an exceptional yet under translated Mexican cultural critic. Fatefully Faithfully Feminist situates the urgencies of social movements as they developed in real time. Spanning from 1973 to 2008, Monsiváis's essays, which were originally compiled by scholar Marta Lamas, analyze the role of women in a patriarchal culture from pre-Columbian times to the present. This critical edition offers extensive annotation and cultural background to understand the cogent but particularly Mexican arguments that Monsiváis makes, many of which are extremely relevant in today's political economy in the US and the world. Norma Klahn and Ilana Luna's translation, critical introduction and commentary consider issues of context, history and conventions framing Monsiváis's debates in relation to global feminist history and human rights struggles.

Corpus-based Research on Variation in English Legal Discourse Teresa Fanego, Paula Rodríguez-Puente, 2019-02-15 This volume provides a comprehensive overview of the research carried out over the past thirty years in the vast field of legal discourse. The focus is on how such research has been influenced and shaped by developments in corpus linguistics and register analysis and by the emergence from the mid 1990s of historical pragmatics as a branch of pragmatics concerned with the scrutiny of historical texts in their context of writing. The five chapters in Part I together with the introductory chapter offer a wide spectrum of the latest approaches to the synchronic analysis of cross genre and cross linguistic variation in legal discourse. Part II addresses diachronic variation illustrating how a diversity of methods such as multi-dimensional analysis, move analysis, collocation analysis and Darwinian models of language evolution can uncover new

understandings of diachronic linguistic phenomena **Rewriting English** Janet Batsleer, 2003 First Published in 2002
