Mahan, 2017-10-13 *The Influence of Sea Power Upon History 1660-1783* is an influential treatise on naval warfare written in 1890 by Alfred Thayer Mahan. It details the role of sea power throughout history and discusses the various factors needed to support a strong navy. Alfred Thayer Mahan (September 27, 1840 – December 1, 1914) was a United States naval officer and historian whom John Keegan called the most important American strategist of the nineteenth century. His book *The Influence of Sea Power Upon History 1660-1783* (1890) won immediate recognition, especially in Europe, and with its successor *The Influence of Sea Power Upon the French Revolution and Empire 1793-1812* (1892) made him world famous and perhaps the most influential American author of the nineteenth century. Mahan was born on September 27, 1840, at West Point, New York, to Dennis Hart Mahan, a professor at the United States Military Academy, and Mary Helena Okill Mahan (1815-1893), daughter of John Okill and Mary Jay, daughter of Sir James Jay. Mahan's middle name honors the father of West Point, Sylvanus Thayer. Mahan attended Saint James School, an Episcopal college preparatory academy in western Maryland. He then studied at Columbia for two years, where he was a member of the Philolexian Society debating club. Against the better judgment of his father, Mahan then entered the Naval Academy, where he graduated second in his class in 1859. Commissioned as a lieutenant in 1861, Mahan served the Union in the American Civil War as an officer on USS *Worcester*, Congress, *Pocahontas*, and *James Adger*, and as an instructor at the Naval Academy. In 1865, he was promoted to lieutenant commander and then to commander in 1872 and captain in 1885. As commander of the USS *Wachusett*, he was stationed at Callao, Peru, protecting US interests during the final stages of the War of the Pacific.

***The Interest of America in International Conditions*** Alfred Thayer Mahan, 1918

Four years before the outbreak of the First World War, the world famous naval historian and strategist Alfred Thayer Mahan warned of the approaching conflict. In *The Interest of America in International Conditions*, Mahan recognized that Germany's effort to add a strong navy to its already powerful land army threatened to upset the balance of power that had prevented a major war in Europe since 1815. He understood that American security could be endangered if Germany dominated the European continent.

published in 1890 by Alfred Thayer Mahan. It details the role of sea power during the seventeenth and eighteenth centuries and discusses the various factors needed to support and achieve sea power with emphasis on having the largest and most powerful fleet. Scholars consider it the single most influential book in naval strategy. Its policies were quickly adopted by most major navies, ultimately leading to the World War I naval arms race. Mahan formulated his concept of sea power while reading a history book in Lima, Peru.<sup>5, 6</sup> The book was published by Mahan while president of the US Naval War College and was a culmination of his ideas regarding naval warfare. Mahan began the book with an examination of what factors lead to a supremacy of the seas, especially how Great Britain was able to rise to its near dominance. He identifies such features as geography, population, and government and expands the definition of sea power as comprising a strong navy and commercial fleet. Mahan also promotes the belief that any army would succumb to a strong naval blockade. The book then goes on to describe a series of European and American wars and how naval power was used in each.

Alfred Thayer Mahan, September 27, 1840–December 1, 1914, was a United States naval officer and historian whom John Keegan called the most important American strategist of the nineteenth century.<sup>1</sup> His book, *The Influence of Sea Power Upon History, 1660–1783* (1890), won immediate recognition, especially in Europe, and with its successor, *The Influence of Sea Power Upon the French Revolution and Empire, 1793–1812* (1892), made him world famous and perhaps the most influential American author of the nineteenth century.
