Congressional Record United States. Congress, 1983 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 St. Nicholas Mary Mapes Dodge, 1923 **Empowering Women in STEM** Sanya Mathura, 2024-03-01 Throughout the globe STEM careers exist However in some countries particular STEM careers have been male dominated while in other countries no gender biases exist as it relates to STEM careers One common trend which occurs throughout the world is that women who are working in these STEM related fields typically leave after about five years Contrarily it has also been uncovered that more women stay in these fields when we all work together Empowering Women in STEM Working Together to Inspire the Future provides a platform to share the stories of those who have been in STEM careers but have pivoted to other areas by utilizing the STEM skills they learned It bridges the gap between those who are thinking about entering or leaving STEM careers along with those who want to encourage others into STEM careers This book showcases how everyone's journey is different some may have unexpected twists and turns while others appear to conform to the normal rules outlined by society By offering a front row seat on a journey that takes many different paths this book provides advice that can lead to a STEM career with or without having a STEM background The different roads taken are highlighted to show how everyone's path is unique and how that is okay With the upcoming generation constantly looking for ways to fit in or be able to identify with role models to help them chart their way forward this book ensures that they have not just one but a variety of role models and success stories to relate to It also offers some key advice which can be applied to any field they choose In addition to having women and men from across the globe share their stories about various fields this book also is written for professionals who may be considering a switch of career or deciding to leave STEM and for university students who are trying to figure out their career choices and paths to take to gain more insight into possible new career goals in STEM Making Space Lance Trevor McCready, 2002 This dissertation is an ethnographic study of Black gay male students who attend Berkeley High School BHS an urban high school in Northern California and investigates how race gender and sexuality affect their marginalization The primary question guiding the investigation is whether where how and with what consequences

extracurricular activities marginalize Black gay male students at BHS The theoretical framework of the study builds upon the concept of marginalization introduced by Cathy Cohen s provocative book *Boundaries of Blackness* 1999 which examines institutional forms of marginalization in AIDS organizations and the Black press The impetus of this dissertation study was research on race and sex segregation in extracurricular activities conducted during the 1996 1997 academic year under the auspices of the Diversity Project a school university collaborative action research project at BHS Subsequent ethnographic research was conducted on intersections of race gender and sexuality in two extracurricular activities Project 10 the social support group for queer students and the Afro Haitian Dance Program AHDP which is part of one of the nation s only African American Studies Department housed in a public high school Four Black gay male students serve as focal students in the data analysis Their experiences highlight how cross cutting issues of race gender and sexuality marginalize Black gay male students within indigenous extracurricular activities that were established to serve the needs of queer students and Black students respectively Furthermore their experiences reflect how responses to marginalization attempts to make space in the institutional structure of BHS through subversive performances of identity The notion of making space reveals the sutured dynamics of multiple categories of identity and the dialectical relationship between the performance of identity and the structure of schools In conclusion queering the marginalization of Black male students helps us rethink the troubles facing Black males in urban schools and challenges us to develop intervention strategies that improve the educational outcomes of Black male students while simultaneously working to dismantle sexism and heterosexism
