Sensationalistic stories have attracted readers for as long as reading has been a popular form of entertainment Readers have been frightened revolted yet fascinated by stories of death thievery kidnapping murder rape scandal love triangles and colorful miscreants Starting in the 1830s this morbid interest in lurid stories fueled the unprecedented growth of sensationalist newspapers that titillated and shocked their many readers This study of sensationalism describes how newspapers added lurid details to their coverage of news events in an effort to attract as many readers as they could Employing hyperbole and exaggerated details they meant to grab the attention of the reader and keep him or her reading For the next hundred years this form of journalism continued later spilling over into radio and television news Along the way the yellow journalism wars of the 1880s and 1890s produced bold headlines eye catching illustrations exaggeration of news events and even false quotes and misleading information Sensational reporting continued with muckraking reporting in the early 1900s as journalistic crusaders worked to expose municipal corruption corporate greed and misconduct in American business *Atrial Fibrillation: Selection of Management Strategy and Evaluation of Outcomes* Rui Providencia,Serge Boveda,Teresa Strisciuglio,Alexandre Almorad,2024-09-13 Atrial fibrillation AF is an increasing arrhythmia disease its pathophysiology is the subject of many studies Rate and rhythm control along with stroke prophylaxis are the cornerstones of AF therapy With the recent evolution of techniques AF ablation is becoming the first therapeutic option in many centres worldwide Pulmonary vein isolation PVI for paroxysmal AF is now well established Additional methods are now rising with non PV trigger ablation such as drivers posterior wall isolation epicardial ablation Recognition of physiopathological signature for AF is the next challenge for all rythmologists This will be achieved only by collecting different inputs such as imagery and mapping This Research Topic will focus on how to define a persistent AF ablation strategy and evaluate its

outcome What is the role of pre ablation imagery MRI ultrasound CT in elaborating an AF ablation strategy Could post ablation imagery be a tool to evaluate the success of an ablation Furthermore the different and complex mechanisms initiating and maintaining AF are still under investigation leading to the absence of consensus for ablation treatment What are the roles played by the new mapping tools along with their algorithms regarding the outcome of ablation The recent development of new ablation technologies catheters such as Pulse Field Ablation and Radiofrequency balloon are bringing a lot of questions regarding long term results of PVI and non PV trigger ablation
