Vis-à-vis Evelyne Amon, Judith A. Muyskens, Alice Omaggio Hadley, 2008-01-01 The fourth edition of Vis a vis continues the excitement of the innovative third edition with an expanded emphasis on the Francophone world in both the print and media supplements In the textbook the new Blog section which appears in the middle of each chapter features contemporary language and French and Francophone culture

presented in the personal blogs of four characters with different Francophone backgrounds followed by commentaries by French speakers from all over the world Blogs which are online personal journals have become hugely popular around the world and particularly in France where there are approximately three million blogs in existence today Our new Video Program filmed specifically for this fourth edition of Vis a vis builds on the stories of each character while serving to support and expand upon the linguistic and cultural content of the chapter as a whole The Bienvenue dans le monde francophone feature that recurs after every four chapters in the textbook has been broadened to include Louisiana Morocco Switzerland and Tahiti Minor changes have been made to the scope and sequence The overall goal of the revision remains the same as that of the third edition to promote a balanced four skills approach to learning French through a wide variety of listening speaking reading and writing activities while introducing students to the richness and diversity of the Francophone world A beautiful new contemporary design gives Vis a vis an appealing look inspired by real life personal blogs that are unique and visually stunning

The Expert Negotiator, 4th Edition Raymond Saner, 2012-05-31 Success in negotiation is not a matter of chance but the result of careful planning and specialized skills Some of these skills are inborn others need to be learnt In this book the social scientist and economist Professor Dr Raymond Saner draws on his long years of experience as a negotiation adviser teacher trainer researcher and university lecturer to show that two-thirds of negotiation practice is learnable Yet very few people are specifically trained in this everyday task Without sacrificing scientific accuracy Professor Saner offers a highly readable and fascinating guide to the subject In so doing he does not limit himself to the over simplified tips generally put out on successful bargaining in every imaginable situation Rather he treats the different aspects of negotiation practice in a way that is useful to both academics and practitioners such that the general laws and principles gradually become evident as and of themselves The aim of this approach is to reveal the essence of negotiation through the experience of both the author and the reader Such an understanding of the processes involved in negotiation is of far greater practical value than a mere collection of recipes with no discussion of the underlying theory while the most comprehensive treatment of the theory without reference to its application in practice would be only half the story Thus the text is supplemented by a series of illustrative examples and case studies from the business political NGO and international organization arenas plus some seventy figures and tables With all this the author has paid considerable attention to writing a text that is both entertaining to read and rigorous in content

Linguistic essays G. H. R. Horsley, 1989-01-01 *New Documents Illustrating Early Christianity* G. H. R. Horsley, Stephen Llewelyn, 1997-12-02 This fifth volume of New documents illustrating early Christianity is different in conception from its predecessors It focuses on several questions concerning the linguistic analysis of the New Testament from the particular perspective of the usefulness of the documentary sources for such study Back cover

The pastor in print Amy G. Tan, 2022-06-21 The pastor in print explores the phenomenon of early modern pastors who chose to become print authors addressing ways authorship could enhance limit or change clerical ministry and ways pastor authors

conceived of their work in parish and print It identifies strategies through which pastor authors established authorial identities targeted different sorts of audiences and strategically selected genre and content as intentional parts of their clerical vocation The first study to provide a book length analysis of the phenomenon of early modern pastors writing for print it uses a case study of prolific pastor author Richard Bernard to offer a new lens through which to view religious change in this pivotal period By bringing together questions of print genre religio politics and theology the book will interest scholars and postgraduate students in history literature and theological studies and its readability will appeal to undergraduates and non specialists

Chekhov's Children Nadya L. Peterson,2021-08-15 Anton Chekhov s representations of children have generally remained on the periphery of scholarly attention Yet his stories about children which focus on communication and the emergence of personhood also illuminate the process by which the author forged his own language of expression and occupy a uniquely important place within his work Chekhov s Children explores these stories dating from Chekhov s early writings in the 1880s as a distinct body of work unified by the theme of maturation and by the creation of a literary model of childhood Nadya Peterson describes the evolution of Chekhov s model and its connection with the prevalent views on children in the literature education medicine and psychology of his time As with his later writing Chekhov s portrayals of young protagonists exhibit complexity diversity and a broad reach across the writer s cultural and literary landscape dealing with such themes as the distinctiveness of a child s perspective the relationship between the worlds of children and adults the nature of child development socialization gender differences and sexuality While reconstructing a particular literary model of childhood this book brings to light a body of discourse on children childhood development and education prominent in Russia in the late nineteenth century Chekhov s Children accords this topic the significance it deserves by placing Chekhov s model of childhood within the broad context of his time and reassessing established notions about the child s place in the author s oeuvre
