Viv Adventures In Duality A Book Of Possibility:

VIV Rick Jordan,2014-10-17 *ViV:Adventures in Duality* Rick Jordan,2014-10-17 The pieces of art and poetry within this book have been compiled over a series of years and have evolved over time In fact they are still evolving and may never be complete They were pieced together in this book into one single presentation of possibilities The aim of this book is to expand your mind The method is my specific dance of creation a sort of style all my own that combines both the lightest and darkest aspects of existence rolls them into one and in doing so attempts to shatter our preconditioned concept of the superiority of one side of duality over the other In this book it s the line dividing the two sides of duality that is glorified nothing more and nothing less This book is written in a kind of rap rhyming zen aimed at shattering the duality within It does not use the same method of reaching the mind that normal poetry or prose uses As you will see the emphasis is on the beat and flow of the syllables and the way of the sounds never minding all the rules Ultimately this book is meant to be an experience not necessarily read in one sitting or even in order but picked up here and there whenever you feel you need a good dose of your duality shattered

Wisdom and New Horizon Manoj Kumar Pal,2008 This book by an internationally reputed Indian scientist traces the developments of Science Religion and Philosophy in human civilization through the ages The common underlying bond more specifically a linkage of philosophy with both science and religion has been examined incisively All the three sub areas of human culture have been presented from a holistic point of view and at the same time stressing some of their irreconcilable basic differences in scope and outlook Meant primarily for general readers the book achieves a fine balance between basic concepts historical evolution and a critical unbiased analysis of rituals dogmas unresolved queries and it leads to an enlightened view of humanism Nature Unity of man need for a new paradigm of social and political order transcending

globalization and control of resources of weaker nations by supremacy in global power equation The book reviews the wisdom of the ancient Hindus Buddhism Jainism and of the three semitic religions Judaism Christianity and Islam It presents a concise account of the Indian Vedas Vedangan Saddarsana the two epics and the Bhagavadgita of the philosophy and science of the Greeks science and technology of ancient Egypt Babylonia and China A valuable special feature is a summary of the status of present day science starting with the classical phase and ending with the developments in the last century comprising the Theory of Relativity quantum physics genetics various aspects of human consciousness modern astronomy astrophysics and cosmology Last but not least the author critically reviews some of the presentday fashionable discourses on science as the best way to reach God and leads the readers to an appraisal of the on going researches on the unification of the four fundamental interactions of physical sciences He ends with the inexorable conclusion that this unification when fully achieved would still not strictly identify the unique force as God as concieved in different religions Audio Visual Journal
