Boje,2018-09-03 Organizational research methods ORM are making an ontological turn by studying the nature of Being becoming and the meaning of existence in the world For example without ontology there is no ground and no theory in Grounded Theory GT This book explores ten ways to develop fourth wave GT that is grounded and theory 1st wave GT commits inductive fallacy inference 2nd wave GT bandaids it with positivistic content coding 3rd wave GT turns to social constructivism but this leaves out the materiality and ecology of existence The first three waves do not address falsification or verification There is another theme Qualitative research methods is a discipline craft not mere science or something that automated text analysis software can displace Quantitative narrative analysis QDA is one more way to colonize and marginalize indigenous ways of knowing IWOK Without an ontological turn it's the death of storytelling predicted by Walter Benjamin and Gertrude Stein predicted

The good news is Western Empirical Science is beginning to listen to IWOK Native Science experiential living story method of relations not only to other humans but to other animals plants to living air water and earth in living ecosystem of an enchanted world There is a gap in the qualitative research methodology practices and comprehensive advanced approaches causing a split between practice and theory So called Grounded Theory inductive positivism Organizational Research Storytelling in Action is about how to conduct ten kinds of ontological Research Methods and conduct their interpretative analyses for organization studies in an ethically answerable way It is aimed at people who want a more advanced treatment than available in so called Grounded Theory or automated narrative analysis books *The Athenaeum* ,1899 **Life** ,1929
