The Cosmos Jay M. Pasachoff, Alex Filippenko, 2013-08-12 An exciting introduction to astronomy the fourth edition of this book uses recent discoveries and stunning photography to inspire non science majors about the Universe Written by two highly experienced and engaging instructors each chapter has been fully updated with more than 200 new images throughout including recent images from space missions and the world's best observatories The newly redesigned text is organized as a series of stories each presenting the history of the field the observations made and how they fit within the process of science our current understanding and what future observations are planned Math is provided in boxes and easily read around making the book suitable for courses taking either mathematical or qualitative approaches New discussion questions

encourage students to think widely about astronomy and the role science plays in our everyday lives and podcasts for each chapter aid studying and comprehension

Downloading Spirit Janet Baljeu, 2012-06-07 DOWNLOADING SPIRIT presents a revolutionary new approach to the understanding of human consciousness Incorporating a cross cultural approach to matters of mythology and symbolism this volume presents a step by step approach to the metaphysical understanding of spiritual growth for our confusing times

Dark Skies Daniel Deudney, 2020 Dark Skies provides the first comprehensive and balanced assessment of the space enterprise past present and future It demolishes widely held optimistic assumptions about the desirability of many major space activities actual and prospective Most consequentially the hiding in plain sight use of outer space as a corridor for long range bombardment has increased the probability of catastrophic nuclear war Contrary to the widespread claim that sustainable colonies on other celestial bodies are necessary for human survival from large scale disasters on Earth Dark Skies shows that colonization itself poses many severe threats and should be avoided Instead an Earth oriented space program should be pursued
