International Research in Education Sciences VII Murat Demirekin, 2024-02-03 Digital Expressions of Gender in Africa Rowland Chukwuemeka Amaefula, 2025-12-08 This book investigates the ways in which gender is performed in Africa's digital spaces. Social media and digital platforms provide young Africans with spaces to performatively resist gender conformance and assert bodies in transitions. These spaces allow gender identities to be fluidly made, unmade, and remade. Drawing on case studies from across North East West Central and Southern Africa, this book investigates the ways in which social media enabled cultural products to resist heteronormativity and project varying masculinities, femininities, and personalities which negate birth sex. These identities in turn open up possibilities for transgender individuals, non-binary persons, and empowered women to performatively resist the systemic constructions of gender. Four particular themes are explored in depth: representations of women in cultural texts, call-out culture, and resistance of cyberbullying; contested masculinities and antinormative gender enactments. The book's inclusive exploration of gendered paradigms of digital expressions in Africa will be of interest to researchers across gender studies, sociology, performing arts, literary studies, linguistics, cultural studies, and media studies.

Proceedings of the Future Technologies Conference (FTC) 2018 Kohei Arai, Rahul Bhatia, Supriya Kapoor, 2018-10-19 The book presenting the proceedings of the 2018 Future Technologies Conference (FTC) 2018 is a remarkable collection of chapters covering a wide range of topics including but not limited to computing, electronics, artificial intelligence, robotics, security, and communications, and their real-world applications. The conference attracted a total of 503 submissions from pioneering researchers, scientists, industrial engineers, and students from all over the world. After a double-blind peer review process, 173 submissions, including 6 poster papers, have been selected to be included in these proceedings. FTC 2018 successfully brought together technology geniuses in one venue to not only present breakthrough research in future technologies but to also promote practicality and applications and an intra- and inter-field exchange of ideas. In the future, computing technologies will play a very important role in the convergence of computing, communication, and all other computational sciences and applications. And as a result, it will also influence the future of science, engineering, industry, business, law, politics, culture, and medicine. Providing state-of-the-art intelligent methods and techniques for solving real-world problems as well as a vision of the future research, this book is a valuable resource for all those interested in this area.
