University Of State Prospectus 2015:

State Capture Alex Hertel-Fernandez, 2019-01-03 Most Americans pay little attention to the massive number of elections that occur at the state level every year Yet cumulatively a party's success in state level races across the country can produce major shifts in policymaking and governance That is precisely what has happened in the US since 2010 In a wave election that year the Republican Party began their ascendancy in state level elections and by 2016 had solidified their dominance The party now fully controls 25 state legislatures and governorships one of the largest advantages either party has had since the New Deal After the GOP wave a broad swathe of states began considering and enacting a near identical set of conservative priorities often even using the exact same text Where did this flood of new legislation come from How did so many states arrive at the same proposals at precisely the same time As Alexander Hertel Fernandez shows in the eye opening *State Capture* the answer can be found in a trio of powerful interest groups the Koch Brothers run Americans for Prosperity AFP the American Legislative Exchange Council ALEC and the State Policy Network SPN Drawing from an impressive evidence base Hertel Fernandez explains how since the 1970s conservative activists wealthy donors and big businesses constructed a right wing troika of overlapping and influential lobbying groups But it is about more than this It also teases out how conservative corporate mobilization has fostered epochal shifts in the American political economy the decline of unions party polarization and the skyrocketing concentration of wealth *State Capture* will be essential reading for anyone interested in understanding contemporary American politics
