The Eye Of The Day:

The Eye of Ra David Klooz, 2020-05-29 a large planet stood above the North Pole for a very long time That is what all the mythology throughout the world uniformly states Mythology from every nation region tribe and period in thousands of languages in hundreds of forms from every continent they all resound a large planet stood above the North Pole for a very long time Every country is accounted for except those located more than 10 degrees below the equator The mythology of regions as far removed from each other as Siberia North Africa and Guatemala all agree As others have indicated I will also suggest that this planet was Saturn and that Saturn was initially a brown dwarf star that created Earth Mars and later Venus In order to put the story into context I will make it abundantly clear that the framework will be based upon plasma physics and the existence of the aether The Solvay Conference founded by the Belgian industrialist Ernest Solvay in 1912 was considered a turning point in the world of physics Located in Brussels the conferences were devoted to outstanding open problems in both physics and chemistry The most famous conference was the October 1927 Fifth Solvay International Conference on Electrons and Photons where the world's most so called notable physicists met to discuss the newly formulated quantum theory The leading figures were Albert Einstein and Niels Bohr Settled Science and Consensus Science began at this time and it is also the moment we stopped doing real physics in the 20th and 21st centuries The bold theoretical and experimental era of physics by the likes of Maxwell at the very dawn of science as we know it ended abruptly at the start of the 20th Century That was when our currently accepted and very different view of physics everything from the Big Bang Expanding Universe Cosmology to Relativistic limitations imposed by flat space and non simultaneous time complicated by a non intuitive Quantum Mechanics of suddenly uncertain atomic realities all took a very different turn from where they had been headed The quantum theory discarded the basic physics principle of cause followed by effect Einstein was disenchanted with the Heisenberg Uncertainty Principle and created his own fatal damage when his thought experiment made up the theory of relativity He isolated his arbitrary observer from the rest of the universe discarded the absolute standards of length and time invented an imaginary proper clock that does not exist removed the aether and the effect of gravity became an illusion Make sure you understand this was not done using any scientific method i.e. observation experimentation and replication but by what became known as a thought experiment Einstein should have kept his day job in the post office as he has set physics the so called Queen of the Sciences back 100 years This conference was also the culmination of the struggle between Einstein and the scientific realists who wanted strict rules of scientific method as laid out by Charles Peirce and Karl Popper versus Bohr and the instrumentalists who wanted looser rules based on expected outcomes regardless of causes and effects Starting at this point the instrumentalists won instrumentalism having been seen as the norm ever since And that has been the insurmountable problem with science ever since the loss of the scientific method and accepting causes without effects and conversely These are all unforgivable losses to the great physicists of the

past We were propelled nearly 2 000 years into past to the Greek Ptolemaic era when geometric symmetry and mathematical beauty dictated that endless the ad hoc epicycles be added to perfect circular planetary orbits in order to match appearances That dogma lasted almost 1500 years How long will we allow relativity dogma and its taboos to persist It should be no surprise that since that fateful conference in 1927 science has failed to produce any fundamental breakthroughs anything like the 19th century when some of the finest experimental physicists such as Ampere Gauss Faraday and Maxwell were discovering the secrets of electricity and electromagnetism The electric universe and plasma physics and cosmology follows the lead of these experimenting electrical pioneers According I will also discard the thought experiments of Einstein and defer to real scientists namely Tesla Maxwell Thornhill and others who long ago recognized that all perceptible matter comes from a primary substance of a tenuity beyond conception and filling all space the Akasha or luminiferous aether which is acted upon by the life giving Prana or creative force calling into existence in never ending cycles all things and phenomena This primary substance thrown into infinitesimal whirls of prodigious velocity becomes gross matter the force subsiding the motion ceases and matter disappears reverting to the primary substance The structure and nature is most likely a vortex appearing like a donut from above or below What I will attempt to present to you in the book is the real story of our history and the real fact that we and the universe and everything in it is electric in nature I will present facts and evidence that demonstrate that all religions mystery schools the Bible and other religious books are nothing more than a rewritten and edited story of a solar system wide cataclysm A story that was written rewritten and edited to make it appear that Jewish people were the Chosen People of God We will see that all the pyramids especially those on the Giza Plateau were built as an energy gathering converting and storing machines to try to save the Earth and Mankind from the electromagnetic perturbations caused by the Sirius System the Sun s binary twin that occurs approximately every 24 000 years The Great Pyramid was not a weapon and certainly not a death star used to explode planets There has been no atomic wars on Earth and no landings by alien beings on Earth nor on any other planet in our solar system There is no Planet X and there is no Nibiru The so called Planet of the Crossing is actually the star Sirius the Sun s binary twin We will see that all the five visible planets Saturn Mercury Mars Jupiter Venus and the two luminaries the Moon and our current Sun became the Gods with several of them coming down to Earth from the Heavens to write our history only a few thousand years ago We will also see and understand that the vast amount of cratering and channels on all of the planets in our solar system are not the result of random meteor or comet strikes wind or water erosion but are the results of electrical arcing between planets that has scarred the surface of the planets and has been demonstrated and replicated in exact detail in plasma laboratories We will examine the Exodus within the context of the Earth in upheaval from a natural solar system wide cataclysm and how Akhenaton Moses and the Ark are main characters in the event We will also examine Mount Sinai and its real identity and location as well as the Sacred Stone s its use who stole them and why This story does not depend on miracles or faith but is

based upon evidence both ancient and current It is our genuine history that has been kept from us in order to maintain control by those in power If you can not see the truth in this story and you want to believe in religions or the current false consensus or settled science you must believe them in one of three ways by faith by ignorance or by indoctrination by faith because you cannot believe something which does not have adequate scientific evidence except as a philosophical viewpoint by ignorance because the only way to be certain in your mind that these theories could work is because you do not have all the facts or if you have been so far indoctrinated you have not made a logical conclusion with your own rational mind you may have never even tried to question what you have been told to believe You must decide for yourself what you will believe If you decide to believe in today s biblical religious myths or consensus and settled pseudoscience of the quackademics and media that is fine just realize that none are supported by true science using the Scientific Method They are myths and not even good ones at that Just remember believing this nonsense and everything else the authorities say is just what they want i e no change in the status quo and leave the thinking to them

The Eye Of The Hurricane Urs Schwarz,2019-07-11 Despite the voluminous research published about World War II there has remained a surprising gap there is little perhaps nothing on the role of Switzerland It was in the neutral Swiss oasis where a perilous balancing act was required for survival that a combination of determination and delicate negotiation continued to frustrate the Axis powers Urs Schwarz cuts through the myths surrounding this period in a narrative based largely on his experiences as both participant and observer He was a soldier then a journalist in war torn Berlin and beginning in 1942 foreign editor of the Neue Zürcher Zeitung These experiences and subsequent extensive research result here in a unique and discerning and colorful history The Eye of Odin James Larson,2003-10 Banished from his homeland in Norway for religious beliefs that ultimately resulted in murder a Viking chieftain and his family must leave their home and travel to a new land With the Christian king determined to stamp out the old gods Thorvald Asvaldsson and his son Erik who will one day be known as Erik the Red embark on a perilous journey destined to change the world accompanied by the powerful seer Ragnar Once restricted to sailing near their native shores the dawn of the longship brings Viking warriors to the unsuspecting coastal areas of Europe The warriors descend on settlements like a plague attacking towns at will and displaying a savagery never before seen At the height of the Viking expansion into Europe and the spread of the pagan religion there is an evil in the world awaiting the travelers and evil from the depths of hell itself back cover **The Eye of Dread** Payne Erskine,2019-09-25 Reproduction of the original The Eye of Dread by Payne Erskine **Michael Jackson, as Seen Through the Eye's of a Stranger: Who Sees into the Hearts of Others** Monique Jordon,2010-04-26 Magical and mysterious I ndeed he was C aring sharing his unlimited love H aving and knowing no boundaries A chievements were a must E specially when it came to us L eft us he has within our hearts an empty place J ealousy and greed sought to destroy him A bove it he did rise C arrying on with K indness and grace S uffering loneliness and despair O ne genuine soul in need of repair N ow in the arms of angels in loving bliss **Through the Eye of a Needle** Pieter Scheurwater,2023-01-25 Pieter Scheurwater realized at a young age he was different than the other boys in his Dutch community In the theologically strict Dutch home and church however he also knew he could not divulge the ways in which he did not belong Though he escaped the expectations of his religious upbringing he unreservedly and unconditionally dedicated his life to God Traveling to Australasia as a young man he still felt obligated to keep his true nature hidden Despite a career with a mission organization marriage and childrearing he finally realized while he may have hidden his true self from others he could no longer maintain the lie In his memoir Scheurwater details his journey to the freedom he experiences when the pretense is stripped away His personal pilgrimage is a testimony of God s unconditional love and faithfulness **In the Eye of the Storm** Steven M. Banka,2006 In 2005 hurricane Katrina hit the gulf coast In New Orleans it wasn t the hurricane you had to survive but the
