The Genesis of Doctrine Alister E. McGrath, 1997-05 Alister E McGrath begins his book by critically engaging the views of George Lindbeck on doctrine before moving on to present a fresh understanding of the nature and function of Christian doctrine within the church Particular attention is paid to the way in which doctrine acts as a demarcator between communities of faith providing important insights into contemporary ecumenical debates McGrath also explores the crucial issue of the authority of the past in Christian theology focusing especially on how doctrine serves to maintain continuity within the Christian tradition The Genesis of Doctrine represents an exploration of a middle way in relation to the significance of Christian doctrine rejecting both those approaches that insist on the uncritical repetition of the doctrinal heritage of the past and those that disallow the authority of past doctrinal formulations The book concludes by considering whether doctrine has a future within the church answering this question in the affirmative on the basis of a number of important theological and cultural considerations

Product Description Explores the crucial issue of the authority of the past in Christian theology focusing especially on how doctrine serves to maintain continuity within the Christian tradition

Balanced Doctrine A P C. CUMMING, 2008-03 Dr A P

What We Believe, 1996 *Christian Foundations*, 1951 **An Analysis of The Foundation of Christian Doctrine by Menno Simons** Clifford E. King, 1956 *Foundations of Systematic Theology* Thomas G. Guarino, 2005-05-01 Guarino argues in this book that the doctrinal form of the Christian faith in its essential characteristics calls for certain theoretical exigencies This is to say that the proportion and beauty of the form is not served or illuminated by simply any presuppositions Rather a determinate understanding of first philosophy of the nature of truth of hermeneutical theory of the predication of language and mutual correlation is required if Christian faith and doctrine are to maintain a recognizable and suitably mediative form Failing to adduce specific principles will lead either to a simple assertion of Christian truth in which case the form of Christianity becomes less intelligible and attractive or one will substitute a radically changed form which is itself inappropriate for displaying the fundamental revelatory narrative of faith The house of Christian faith possesses a certain proportion of structure the form will sag badly if one removes an undergirding item or if one beam is replaced with another of variable shape or size The form's beauty will either be obscured no longer clearly visible or the form will become something quite different no longer architectonically related to what was originally the case The intention of this book is to discuss those doctrinal characteristics considered fundamental to the Christian faith as protective of its revelatory form and concomitantly to examine the theoretical principles required if such form is to remain both intelligible and beautiful

Thompson employs ten case studies that illustrate the overlapping influences of tradition and contexts both ecclesial and cultural on doctrinal discourse Thompson takes the reader from those historical and paradigmatic case studies into some of the great contemporary debates about doctrine including those which have been shaped by the critique of doctrine associated with the European Enlightenment as well as the challenges and contributions of theologians of the majority world He pays particular attention to the influence that these diverse cultural ecclesial and academic contexts have had upon the shape and content of particular doctrines This leads into an engagement with George Lindbeck's seminal *The Nature of Doctrine* as well as the more recent proposals of Kevin Vanhoozer and Christine Helmer This guide concludes by developing the idea of a Christian social imaginary as the framework for holding together doctrine practice truth diversity and context
