

The Fourgated City

Barbara Hill Rigney

The Fourgated City:

The Four-gated City Doris Lessing, 1993 The fifth and final book in the Nobel Prize for Literature winner's Children of Violence series tracing the life of Martha Quest from her childhood in colonial Africa to old age in post nuclear Britain The Four Gated City finds Martha Quest in 1950s London and very much part of the social history of the time the Cold War the anti nuclear Aldermaston Marches Swinging London the deepening of poverty and social anarchy Daring to go a step further as Lessing so often has in her career the novel ends with the century in the throes of World War Three In the four previous novels of the Children of Violence series Lessing explored the end of an epoch Here she trains her gaze on the present and the future The disquieting power of her vision revealed across this series finds its culmination in this brave and visionary work

The Four-gated City Doris Lessing, 1976 **The four-gated city** Doris Lessing, 1976 The fifth book in the Children of Violence series a quintet of novels tracing the life of Martha Quest from her childhood in colonial Africa through to old age in a post nuclear Britain The other books are Martha Quest A Proper Marriage A Ripple from the Storm and Landlocked

The Four-Gated City Doris Lessing, 2010-10-19 I read the Children of Violence novels and began to understand how a person could write about the problems of the world in a compelling and beautiful way and it seemed to me that was the most important thing I could ever do Barbara Kingsolver The Children of Violence series a quintet of novels tracing the life of Martha Quest from her childhood in Africa to a post nuclear Britain of AD 2000 first established Doris Lessing winner of the Nobel Prize for Literature as a great radical writer In this the fifth and final volume Marth now middle aged leaves Africa for post war London As housekeeper to the Coldridge family she watches the children in her care the new children of violence grow up in a disintegrating world a world careering toward nuclear disaster

Four-gated City Doris Lessing, 2000 THE FOUR-GATED CITY DORIS LESSING ,1969 **The four-gated city** Doris May Lessing, 1973 The Four-gated City Doris Lessing, 1977 *Four-gated City* ,1969 Children of Violence: The four-gated city Doris Lessing, 1969 The Four-gated City Doris Lessing, 1976 **The Four-gated City** Doris May Lessing, 1969 **Doris Lessing** Gayle Greene, 1994 An original and compelling appraisal of this important international literary figure Between East and West Müge Galin, 1997-01-01 Considers how Lessing's exposure to a particular aspect of tasawwuf the classical Sufi Way has shaped her work Impresses upon the reader the degree to which Lessing is seriously offering her space fiction utopias as plausible and even necessary alternatives to our present Western ways of life

Madness and Sexual Politics in the Feminist Novel Barbara Hill Rigney, 1978 A greater part of the feminist movement has considered traditional psychology to be both a product and a defense of the status quo a patriarchal society Here Barbara Hill Rigney explores emerging feminist psychology by applying it to literary works by women who have depicted the relationship between madness and the female condition The result is a fascinating and illuminating exposition certain to be welcomed by students and scholars in literature and women's studies as well as those in sociology and psychology whose interests include feminism

and problems of women and society Among the works Rigney considers are Charlotte Brontë's *Jane Eyre* Virginia Woolf's *Mrs Dalloway* Doris Lessing's *The Four Gated City* and Margaret Atwood's *Surfacing* all of which depict insanity in relation to sexual politics These authors portray a patriarchal social system which in itself manifests symptoms of collusive madness in the form of war or sexual oppression and is thereby seen as threatening to female psychological survival Each of Rigney's author subjects sees her protagonist as tragically divided between male society's prescribed roles for women and a sense of an authentic self Thus emerges a pattern common to all works in which the divided self is reflected by the inevitable juxtaposition of the protagonist to a doppelgänger an insane self an extension of the protagonist who herself can be regarded as sane only by degree A return to true sanity is traced through the patterns found in the selected works Rigney explores the literary metaphor of the return of Demeter or the Amazon mother to restore the alienated female protagonists In order to begin the return from psychosis Rigney concludes they must find the mother within themselves in the form of a feminist consciousness of self worth

The Dialogic Self Roxanne J. Fand, 1999 By theorizing subjectivity according to the dialogic model of Mikhail Bakhtin author Roxanne J Fand posits a moderating self narrator who rather than imposing a single authoritarian voice of fixed ideology and identity negotiates among diverse internalized voices of one's social ecological milieu

Old Lines, New Forces Robert K. Morris, 1976 Draws together a dozen essays by the foremost contemporary critics of the British novel to examine its growth in the sixties The collection of critical pieces is devoted to major minor and rising novelists who are cultivating the seedbed of contemporary fictional talent in England today

Rereading Doris Lessing Claire Sprague, 2014-07-02 According to Sprague doubling in Lessing's novels is a perfect correlative for the complexity and contradiction Lessing perceives as central to the private and collective human experience Her doubles and multiples not only indicate the fracturing or the formation of identity but they also are among the several strategies used to project complex private and societal concerns This study of Lessing's dialectical imagination extends and revises earlier feminist approaches Originally published in 1987 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

Romanticism and the City L. Peer, 2011-04-25 Romanticism and the City explores how late eighteenth and early nineteenth century literature conceptualized urban space Fresh readings of key texts show how Romantic concerns with urban life shaped both individual works and broad theoretical issues in European Romanticism at large

Imagining the Modern City James Donald, 1999 Paris Berlin London Singapore New York Chicago Los Angeles these define the city in the world's consciousness James Donald takes us on a psychic journey to these places that have inspired artists writers architects and filmmakers for centuries Considering the cultural and political implications of the urban imaginary Donald explores the pleasures and challenges of modern living contending that the imagined city remains the best

lens for a future of democratic community How can we think of Chicago without recalling the grittiness of *The Asphalt Jungle* s back alleys or of London without the dank foggy atmosphere so often evoked by Dickens When de Certeau explores what it means to walk through a city or Foucault dissects the elements of the modern attitude what are they telling us about modernity itself Through a discussion of these and many other questions about urban thought Donald demonstrates how artists and social critics have seen the city as the locus not just of vanity squalor and injustice but also of civilized society s highest aspirations *Imagining the modern City* also looks at how artists have shaped cities through their creation of public spaces sculpture and architecture art forms that help determine our ideas about our place in the urban environment Planners and architects such as Otto Wagner Le Corbusier and Bernard Tschumi present us with real and possible cities showing a way forward to alternative social futures Donald asserts The modern city provides both a culturally resonant imagined space and a physical place for the everyday life of its residents *Imagining the Modern City* is a rich and dazzling exploration of the ways cities stir and shape our consciousness
