Similarities And The Differences Between Nsfas And Student Loan:

Fees Must Fall Susan Booysen, 2016-10-01 This book explores the student discontent a year after the start of the 2015 South African FeesMustFall revolt. FeesMustFall the student revolt that began in October 2015 was an uprising against lack of access to and financial exclusion from higher education in South Africa. More broadly it radically questioned the socio-political dispensation resulting from the 1994 social pact between big business, the ruling elite and the liberation movement. The 2015 revolt links to national and international youth struggles of the recent past and is informed by black consciousness politics and social movements of the international left. Yet its objectives are more complex than those of earlier struggles. The student movement has challenged the hierarchical top down leadership system of university management and its double speak of professing to act in workers and students interests yet entrenching a regressive system for control and governance. University managements while on one level amenable to change have also co-opted students into their ranks to create co-responsibility for the highly bureaucratised university financial aid that stands in the way of their social revolution. This book maps the contours of student discontent a year after the start of the FeesMustFall revolt. Student voices dissect colonialism, improper compromises by the founders of democratic South Africa, feminism, worker rights and meaningful education. In depth assessments by prominent scholars reflect on the complexities of student activism, its impact on national and university governance and offer provocative analyses of the power of the revolt.

QUALITY OF LIFE SURVEY V (2017/18) THE QUALITY OF LIFE OF STUDENTS IN GAUTENG Christian Hamann, Kate Joseph, 2020-07-29 GCRO Data Brief on quality of life of students. *OECD Development Policy Tools Evidence-based Policy Making for Youth Well-being A Toolkit* OECD, 2017-10-17 With 1.2 billion people today's youth population aged 15-24 represents the largest cohort ever to enter the transition to adulthood. Close to 90% of these young people live in developing countries and the numbers will practically double in the least developed countries. Universities, Employability and Human Development Melanie Walker, Samuel Fongwa, 2017-01-20 The book makes a significant contribution to critical higher education studies specifically to graduate employability research and to capabilities and education research. The book moves beyond the simplistic conception of alleged gaps in graduate skills and mismatches between employers and universities and instead provides an innovative multi-dimensional and intersectional human capabilities conceptualisation of graduate employability. The book challenges an individualised notion of employability instead locating employability issues in social and economic conditions and argues that employability choices cannot be divorced from inequality. Qualitative and quantitative data from multiple case study universities in South Africa are used to explore the perceptions and experiences of diverse students, lecturers, support officers and employers regarding what each university is doing or should be doing to enhance graduate economic opportunities and contribute to inclusive development. The book will be highly relevant to students, scholars and researchers in the fields of education and sociology particularly those with an interest in graduate employability.

Government Managing Risk

Bruce Chapman,2006-09-27 Higher education rates are increasing throughout the Western world yet at the same time government budgets face increasing constraints This has ensured that the importance of student support is recognized in many countries In recent years there has been a world wide movement towards the use of income contingent loans ICL for higher education ICLs are now used in six countries following the Australian innovation of 1989 with the governments of many more countries looking very seriously at the model This impressive new book by Bruce Chapman analyzes ICLs particularly their use in supporting students exploring the experiences of a number of other countries adopting them Chapman presents analysis of a number of disparate case studies to illustrate how ICLs can aid risk management policy reforming in both progressive and administratively feasible ways This book describes examines and promotes an exciting new role for the public sector as a manager of risk and argues that ICLs have enormous potential to change the extent and nature of social and economic activities With the author s experience in the design and implementation of the Australian student financial support schemes this is a knowledgeable informative and enlightening book that will be useful to researchers students and policy makers alike
