Perspectives on Student Affairs in South Africa McGlory Speckman, Martin Mandew, 2014-07-17 The goal of *Perspectives on Student Affairs in South Africa* is to generate interest in student affairs in South Africa. The papers contained herein are based on best practice local experience and well researched international and local theories. The papers in this book deal with matters pertaining to international and national trends in student affairs, academic development, access and retention, counselling and material support for students coming from disadvantaged backgrounds. They are linked to national and international developments as described in the first two papers. This publication will assist both young and experienced practitioners as they grow into their task of developing the students entrusted to them. All contributors are South Africans with a great deal of experience in student affairs and all are committed to the advancement of student affairs in South Africa. The editors are former heads of student affairs portfolios at two leading South African universities. *Reflections of South African Student Leaders: 1994 to 2017* Ntokozo Bhengu, Denyse Webbstock, 2020-05-13 *Reflections of South African Student Leaders 1994 2017* brings together the reflections of twelve former SRC leaders from across the landscape of South African universities. Reviews of the previous volume 1981 2014 suggested that it contributed significantly to a better understanding of the stringent demands of visionary and transformative leadership required by university leaders in the fastchanging and increasingly complex public higher education sector. This volume is based on comprehensive interviews with former student leaders each of whom provided a personal account in their own words of their experience in the position of student leadership. The interviewees are from different backgrounds and of diverse political persuasions. The book is important for current and future leaders of higher education institutions as it provides insights into the thinking, aspirations, desires, fears and modus operandi of student leaders. Such insight can contribute to developing and implementing appropriate strategies for achieving meaningful and constructive engagement with current and future student leaders. *Campus Student Activism, Politics, and Citizenship in the 21st Century* Tshishonga, Ndwakhulu, 2025-04-03 Student activism and citizenship remain an integral part of the governance of academic institutions, democratizing the learning environment and advancing democratic values and societal change.
