The Aesthetics Of Mimesis Ancient Texts And Modern Problems

Michael Marder

The Aesthetics Of Mimesis Ancient Texts And Modern Problems:

The Aesthetics of Mimesis Stephen Halliwell, 2009-01-10 Mimesis is one of the oldest most fundamental concepts in Western aesthetics This book offers a new searching treatment of its long history at the center of theories of representational art above all in the highly influential writings of Plato and Aristotle but also in later Greco Roman philosophy and criticism and subsequently in many areas of aesthetic controversy from the Renaissance to the twentieth century Combining classical scholarship philosophical analysis and the history of ideas and ranging across discussion of poetry painting and music Stephen Halliwell shows with a wealth of detail how mimesis at all stages of its evolution has been a more complex variable concept than its conventional translation of imitation can now convey Far from providing a static model of artistic representation mimesis has generated many different models of art encompassing a spectrum of positions from realism to idealism Under the influence of Platonist and Aristotelian paradigms mimesis has been a crux of debate between proponents of what Halliwell calls world reflecting and world simulating theories of representation in both the visual and musico poetic arts This debate is about not only the fraught relationship between art and reality but also the psychology and ethics of how we experience and are affected by mimetic art Moving expertly between ancient and modern traditions Halliwell contends that the history of mimesis hinges on problems that continue to be of urgent concern for contemporary aesthetics

The Theory of the Sublime from Longinus to Kant Robert Doran, 2015 The first in depth treatment of the major theories of the sublime from Longinus to Kant *The Event of the Thing* Michael Marder, 2011-04-19 Jacques Derrida's writings often embed the key themes of deconstruction in a notion of the thing The Event of the Thing is the most complete examination to date of Derrida's understanding of thinghood and its crucial role in psychoanalysis ethics literary theory aesthetics and Marxism Arguing that the thing as a figure of otherness destabilizes the metaphysical edifice it underlies Michael Marder reveals the contributions it makes to critiques of humanism and idealism Subsequently the new realism that emerges from deconstruction holds the possibility of an event that problematizes all attempts to objectify the thing An illuminating analysis of Derrida and phenomenology The Event of the Thing is an innovative and compelling study of a crucial aspect of one of the twentieth century's greatest thinkers

Religion in the English Novel Michael Giffin, 2020-10-23 Romanticism marked a dramatic turning point in philosophy and aesthetics The shift from Classicism to Romanticism to Modernism and its Posts is paralleled in the shift from Kant to Hegel to Nietzsche to Derrida The central notions of the Enlightenment nature progress rationalism and rejection of the irrational are opposed by the central notions of the Counter Enlightenment relativism vitalism anti rationalism and sense of the organic Then there is the idea of freedom at the heart of the West's religious and secular vocabularies The authors discussed in this study ask their readers to consider the question of freedom and constraints upon it For some freedom is found in Christianity for others Christianity is freedom's enemy

The Poetics in its Aristotelian Context Pierre Destrée, Malcolm Heath, Dana L. Munteanu, 2020-03-18 This volume integrates aspects of the

Poetics into the broader corpus of Aristotelian philosophy It both deals with some old problems raised by the treatise suggesting possible solutions through contextualization and also identifies new ways in which poetic concepts could relate to Aristotelian philosophy In the past contextualization has most commonly been used by scholars in order to try to solve the meaning of difficult concepts in the Poetics such as catharsis mimesis or tragic pleasure In this volume rather than looking to explain a specific concept the contributors observe the concatenation of Aristotelian ideas in various treatises in order to explore some aesthetic moral and political implications of the philosopher's views of tragedy comedy and related genres Questions addressed include Does Aristotle see his interest in drama as part of his larger research on human natures What are the implications of tragic plots dealing with close family members for the polis What should be the role of drama and music in the education of citizens How does dramatic poetry relate to other arts and what are the ethical ramifications of the connections How specific are certain emotions to literary genres and how do those connect to Aristotle's extended account of *pathos* Finally how do internal elements of composition and language in poetry relate to other domains of Aristotelian thought The Poetics in its Aristotelian Context offers a fascinating new insight to the Poetics and will be of use to anyone working on the Poetics or Aristotelian philosophy more broadly

drama the history of photography and contemporary ethics *Punchdrunk on the Classics* Emma Cole, 2023-11-28
Punchdrunk on the Classics Experiencing Immersion in *The Burnt City* and Beyond draws attention to Punchdrunk's use of ancient Greek literature in their creation of immersive theatre. The book documents and analyses the effects of utilising Greek tragedy within both Punchdrunk's creative development windows and the company's final staged productions. It features material stretching from *The House of Oedipus* 2000 right through to *The Burnt City* 2022/23 on which the author worked as dramaturg. Chapters include rehearsal studies, explorations of how Greek literature can shape an audience's experience in immersive theatre and considerations of how *The Burnt City* might change our understanding of the poetics of immersion in antiquity. Overall *Punchdrunk on the Classics* provides an unparalleled depth of insight into an individual Punchdrunk production and highlights the until now overlooked significance of antiquity within Punchdrunk's practice. Winner of the 2024 Rob Jordan Prize for Theatre and Performance Studies **The Layers of the Text** Richard Hunter, 2021-10-25 This volume collects the most recent essays of Richard Hunter, one of the world's leading experts in the field of Greek and Latin literature. The essays range across all periods of ancient literature from Homer to late antiquity with a particular focus not just on the texts in their original contexts but also on how they were interpreted and exploited for both literary and more broadly cultural purposes later in antiquity. Taken together the essays sketch a picture of a continuous tradition of critical and historical engagement with the literature of the past from the period of Aristophanes and then Plato and Aristotle in classical Athens to the rich prose literature of the Second Sophistic. Richard Hunter's earlier essays are collected in *On Coming After Berlin* 2008 *Images in Use* Matteo Stocchetti, Karin Kukkonen, 2011 Conceptualising images as images in use: this title considers the agencies behind visual communication and its impact on society. It engages critically with traditional approaches to visual analysis, socially situated analyses of images and demonstrates the explanatory force of thinking through images in use in a series of case studies *The Oxford Handbook of Ethics and Art* James Harold, 2023 Art has not always had the same salience in philosophical discussions of ethics that many other elements of our lives have. There are well-defined areas of applied ethics corresponding to nature, business, health care, war, punishment, animals and more, but there is no recognized research program in applied ethics of the arts or art ethics. Art often seems to belong to its own sphere of value, separate from morality. The first questions we ask about art are usually not about its moral rightness or virtue but about its beauty or originality. However, it is impossible to do any serious thinking about the arts without engaging in ethical questions *Phänomenologie und Ethik. Perspektivische Erkundungen / Phaenomenology and Ethics. Perspective explorations* Jure Zovko, Marko Vučetić, 2022 This collection of essays considers fundamental philosophical questions from a variety of perspectives, taking as point of departure the standpoint of Classical German thinkers Kant and Hegel with their focus on epistemic, moral and aesthetic values as central to achievement of a meaningful human life both as an individual and in the context of human society and culture, nature and the universe as a whole. From this vantage point the relationship of

poetry and philosophy comes into play and central ethical questions are raised regarding the practice of life in relation to human rights and the rights of other species **The Oxford Dictionary of Late Antiquity** Oliver Nicholson, 2018-04-19

Semi, translated by Timothy Keates, 2016-04-29 Music as a Science of Mankind offers a philosophical and historical perspective on the intellectual representation of music in British eighteenth century culture From the field of natural philosophy involving the science of sounds and acoustics to the realm of imagination involving resounding music and art the branches of modern culture that were involved in the intellectual tradition of the science of music proved to be variously appealing to men of letters Among these a particularly rich field of investigation was the British philosophy of the mind and of human understanding developed between the seventeenth and eighteenth centuries which looked at music and found in its realm a way of understanding human experience Focussing on the world of sensation trying to describe how the human mind could develop ideas and emotions by its means philosophers and physicians often took their cases from art's products be it music sounds painting colours or poetry words as signs of sound conveying a meaning thus looking at art from a particular point of view that of the perceiving mind The relationship between music and the philosophies of mind is presented here as a significant part of the construction of a Science of Man a huge and impressive project involving both the study of man's nature to which in David Hume's words all sciences have a relation and the creation of an ideal of what Man should be Maria Semi sheds light on how these reflections moved towards a Science of Music a complex and articulated vision of the discipline that was later to be known as musicology or Musikwissenschaft **The Routledge Companion to Philosophy**

Sebald's Hybrid Poetics** Lynn L. Wolff, 2014-04-02 This book offers a new critical perspective on the perpetual problem of literature s relationship to reality and in particular on the sustained tension between literature and historiography The scholarly and literary works of W G Sebald 1944 2001 serve as striking examples for this discussion for the way in which they demonstrate the emergence of a new hybrid discourse of literature as historiography This book critically reconsiders the claims and aims of historiography by re evaluating core questions of the literary discourse and by assessing the ethical imperative of literature in the 20th and 21st centuries Guided by an inherently interdisciplinary framework this book elucidates the interplay of epistemological aesthetic and ethical concerns that define Sebald s criticism and fiction Appropriate to the way in which Sebald s works challenge us to rethink the boundaries between discourses genres disciplines and media this work proceeds in a methodologically non dogmatic way drawing on hermeneutics semiotics narratology and discourse theory In addition to contextualizing Sebald within postwar literature in German the book is the first English language study to consider Sebald s uvre as a whole Of interest for Sebald experts and enthusiasts literary scholars and historians concerned with the problematic of representing the past *Immersion, Identification, and the Iliad* Jonathan L. Ready, 2023 Why do people care about this foundational epic poem and its characters This is the first book to apply to the Iliad research in communications literary studies media studies and psychology on how readers of a story or viewers of a play movie or television show find themselves immersed in the tale and identify with the characters **Sculpture, weaving, and the body in Plato** Zacharoula Petraki, 2023-08-21 Plato s Timaeus is unique in

Greek Antiquity for presenting the creation of the world as the work of a divine demiurge. The maker bestows order on sensible things and imitates the world of the intellect by using the Forms as models. While the creation myth of the *Timaeus* seems unparalleled, this book argues that it is not the first of Plato's dialogues to use artistic language to articulate the relationship of the objects of the material world to the world of the intellect. The book adopts an interpretative angle that is sensitive to the visual and art historical developments of Classical Athens to argue that sculpture revolutionized by the advent of the lost wax technique for the production of bronze statues lies at the heart of Plato's conception of the relation of the human soul and body to the Forms. It shows that despite the severe criticism of *mimēsis* in the *Republic*, Plato's use of artistic language rests on a positive model of *mimēsis*. Plato was in fact engaged in a constructive dialogue with material culture and he found in the technical processes and the cultural semantics of sculpture and of the art of weaving a valuable way to conceptualise and communicate complex ideas about humans' relation to the Forms.

The Body and the Senses in Greek Tragedy Afroditi Angelopoulou, 2025-07-23

The Body and the Senses in Greek Tragedy is the first book to approach the corporeality of Greek drama in terms of its capacity to involve audiences in the construction of meaning not only on an affective but also on an intellectual level. Afroditi Angelopoulou argues that the inner workings of theatre and the reasons behind its effectiveness can be located in the lived sentient body as the root of human thought, experience and awareness. Drawing on theories of embodiment, theatre and performance studies, this study shows that investigating the playwrights' sustained and varied use of elements of corporeality is essential for uncovering the meaning of tragic narratives, whether experienced in live performance or as a text. Through close readings of select plays, Angelopoulou explores the intricate connections between sensory experience, language, physical movement and affect, focusing on the way intercorporeal processes unfold on the stage and within the theatre space. She demonstrates how thinking with and through the body can ultimately encourage the spectator as well as the reader to participate in the act of sense-making. Each chapter traces distinct somatic themes, indicating how these contribute to a play's aesthetics, ethics and narrative arc. By employing the human sensorium as a hermeneutic device, *The Body and the Senses in Greek Tragedy* offers a compelling methodology for studying language, subjective experience and performance reception in Greek drama.
