

6. OPERATING INSTRUCTIONS

6.1 Working with Detergents

Working with a detergent ensures quick soaking of the dirt, and allows the high-pressure water to penetrate and remove the dirt more effectively. Always spray detergent on a dry surface, do not pre-soak the area. Wetting the surface first dilutes the detergent and reduces its cleaning ability.

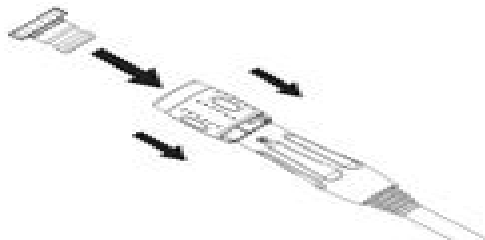

To apply detergents, you must be operating at a low pressure. This provides a gentle application of the detergent, with the pressure equivalent to the lowest pressure garden hose. The high-pressure setting is used for cleaning; you cannot apply detergents when working at a high pressure. Always test the detergent in a concealed area before use.

1

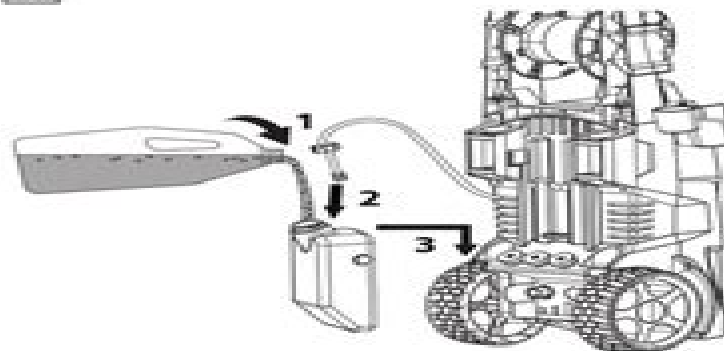

Engage the safety lock on the spray gun.

2

Then, attach the low-pressure spray tip (black tip) to the quick-connect wand for soap application.

3

(When using detergent)

1. Fill the detergent container with detergent.
2. Attach the detergent suction tube onto the detergent lid
3. Attach the container to the pressure washer's container storage area.

4

Turn on the pressure washer. Pull the trigger to operate the device. The liquid detergent will be mixed with water automatically, being discharged through the nozzle at low pressure. Apply the detergent to a **dry** work surface from bottom to top.

5

Allow detergent to remain on the surface for a short time before rinsing. Do not allow detergent to dry on the surface.

6

Rinse with clean water under high pressure. On a vertical surface, rinse from the bottom up, then rinse from the top down to avoid streaking. Hold the nozzle 15-20cm (6-8") away from the work surface at a 45° angle.

7

When you have finished using the detergent injection system, fill the detergent container with clean water. Siphon water at low pressure for one minute, so that all detergent is flushed through the system. Remove the detergent container and rinse it thoroughly.

CAUTION

Damage may occur to painted surfaces if chemicals are allowed to dry on them. Wash and rinse a small section at a time. Avoid working on hot surfaces or under direct sunlight.
