

Building an Electric Motor

Pre-lab

This pre-lab will familiarize you with the physics of the electric motor you will see in the lab video. Below is a schematic diagram of the electric motor. You are given the direction of the magnetic field ($\vec{B}$) created by the magnets and the current ($\vec{I}$) flowing through the coil (which is free to rotate).

For the following questions, sketch, and label vectors on the diagram. If a value is 0, label it in place of drawing a vector (e.g. $\vec{B} = 0$).

1. Apply the right-hand rule and show the direction of the force vectors $\vec{F}$ on the four sides of the loop. Record the equation that corresponds to your right-hand rule.
