Urban Tourism in China Mimi Li, Wu Bihu, 2013-09-13 China has witnessed a dramatic development of tourism in urban context in the past thirty years, especially with its success in hosting the Beijing Olympic Games in 2008 and the Shanghai World Exposition in 2010. Urban areas as tourism destinations are receiving increasingly more popularity than traditional destinations such as national parks, natural reserves, and historical relics. Deriving largely from a special issue on Urban Tourism Development and City Destination Marketing, *Journal of China Tourism Research: Urban Tourism in China* presents the readers with a collection of nine independent research reports examining issues such as consumer behaviour in urban destinations, the social impact of tourism, destination image, leisure, regional collaboration, and heritage tourism in ancient towns. The investigations covered urban areas of different scales and diversified nature from major metropolises such as Beijing and Guangzhou to ancient towns like Lijiang and Pingyao. Readers who have interests of tourism research, business development, and in-depth understanding of urban life in China may find the book informative and interesting.
