Mulinge, N. Arasa, 2017-05-05 This book examines the concept of the democratization of governance in universities in Kenya with particular emphasis on students involvement in governance processes and decision making Data were collected from members of the student community utilizing a structured self administered questionnaire and from purposively selected key informants and focus group discussants drawn from Kenyatta University representing the public sector and the United States International University representing the private sector The guiding argument for the study was that shared governance one of the principles of good governance is critical in enabling the universities to deliver their visions and the missions effectively The results revealed that while in principle Kenyan universities have embraced democratic governance in which all stakeholders including students have a role to play in practice they continue to violate the core principles of good governance particularly shared governance Specifically students who are major stakeholders in university education are largely excluded from significant structures of governance thereby limiting their influence and participation Although their representation is mainly provided via student self governance organs unions associations and or councils their effectiveness is undermined considerably by the lack of trust and confidence of the student body and the unending manipulation by top university administrators and external political actors Student active involvement in decision making is mainly confined to lower levels such as the school faculty and departmental programme The authors call for a paradigm shift in the involvement of students in the governance of universities in ways that discourage the current culture of tokenism and political correctness that characterizes public and private universities in Kenya **Geospatial Challenges in the 21st Century** Kostis Koutsopoulos, Rafael de Miguel González, Karl Donert, 2019-01-16 This book focuses on 21st century geospatial technologies GT It highlights their broad range of capabilities and their essential role in effectively addressing and resolving critical everyday issues such as environment sustainability climate change urban planning economy culture and geopolitics Featuring chapters written by leading international scientists it discusses the application of GT tools and demonstrates that the problems requiring such

tools transcend national boundaries cultures political systems and scientific backgrounds on a global scale In addition it enhances readers spatial understanding of and geographical reasoning in connection with societal issues The book will appeal to scientists teachers and students of geography the earth sciences and related areas as well as decision makers interested in the application and capabilities of geospatial technologies and new spatial methods for addressing important issues

Effects of Engagement and Resources on Learning Outcomes in Vocational Colleges: Emerging Research and Opportunities Malechwanzi, Joseph Muthiani,2019-08-30 A main staple of today s world that has played a key role in the development of society is education and institutions of higher learning An ongoing concern however has been the lack of access and resources to superior teaching in developing areas of the world Student engagement and learning environments are just a few elements that play into the success of colleges in areas like the Coast Region of Kenya Research must be done

in understanding the correlation between the tools that these institutions are equipped with and the educational results of their students

Effects of Engagement and Resources on Learning Outcomes in Vocational Colleges Emerging Research and Opportunities is an essential reference source that discusses the relationship between college resources and students learning outcomes as well as contributing factors in promoting quality education and training Featuring research on topics such as research philosophies teaching workloads and student engagement this book is ideally designed for teachers deans researchers education professionals administrators policymakers government officials and academicians seeking coverage on the methods of acquiring and maintaining quality education in developing countries *Taita Taveta District Socio-cultural Profile* Kenya. Ministry of Planning and National Development,1986 **The Weekly Review** ,1996 Kenya National Assembly Official Record (Hansard) ,1971-02-23 The official records of the proceedings of the Legislative Council of the Colony and Protectorate of Kenya the House of Representatives of the Government of Kenya and the National Assembly of the Republic of Kenya Citizen Participation in Decision Making Njogu, Kimani,2014-01-16 This book is a result of public dialogue forums in pursuit of accountable and transparent governance in Kenya organized by Twaweza Communications with the support of Ford Foundation From the convenings it was evident that the stability of Kenya will be driven by the extent to which citizens feel fully included in the development agenda Quite often political leaders view the role of citizens in governance as restricted primarily to their participation in the electoral process This narrow view has led to arrogance and total disregard of citizens after poll results are announced Under the new political dispensation heralded by the promulgation of the Constitution of Kenya on August 27 2010 this trend must change and the sovereignty of the people in theory and practice must be reinscribed The publication raises important issues worth serious reflection It also suggests ways in which citizens can better participate in their own transformation Case studies highlighted in the book exemplify the importance building the Kenyan nation by addressing patterns of exclusion and glaring inequalities The topics covered include multipartism natural resource governance gender politics of identity marginalization of Coastal Kenya youth empowerment and investing in knowledge economy among others The book is a valuable addition to our understanding of the root political and social anxieties in Kenya and how these could be ameliorated **Advancing Africa's Sustainable Development** Alain L. Fymat,2018-11-14 While many African countries lag behind the rest of the industrialised world in scientific and medical research and development the situation is progressively improving This is why the Society for the Advancement of Science in Africa was established to contribute to economic advancement and sustainability through science research education and innovation This book provides a selection of papers from the Advancement of Science in Africa s fourth annual conference The conference was held under the overarching theme of science technology and innovation in Africa with several important sub themes including but not limited to improving health research and disease surveillance education collaborating in research responding to epidemic diseases with high mortality in Africa and promoting women s interest in science careers

The collection illustrates how although the chapter contributors come from various countries and universities representing their own academic research they all share a common interest in advancing science technology and innovation in Africa

Kenya is one of the most politically dynamic and influential countries in sub Saharan Africa Today it is known in equal measure as a country that has experienced great highs and tragic lows In the 1960s and 1970s Kenya was seen as a success story of development in the periphery and also led the way in terms of democratic breakthroughs in 2010 when a new constitution devolved power and placed new constraints on the president However the country has also made international headlines for the kind of political instability that occurs when electoral violence is expressed along ethnic lines such as during the Kenya crisis of 2007 08 when over 1 000 people lost their lives and almost 700 000 were displaced The Oxford Handbook of Kenyan Politics explains these developments and many more drawing together 50 specially commissioned chapters by leading researchers The chapters they have contributed address a range of essential topics including the legacy of colonial rule ethnicity land politics devolution the constitution elections democracy foreign aid the informal economy civil society human rights the International Criminal Court the growing influence of China economic policy electoral violence and the impact of mobile phone technology In addition to covering some of the most important debates about Kenyan politics the volume provides an insightful overview of Kenyan history from 1930 to the present day and features a set of chapters that review the impact of devolution on regional politics in every part of the country

The Railpolitik Yuan Wang,2024-02-07 This book uses three case studies of Chinese financed and constructed rail projects to explore the growing presence of China in Africa and its relationship to African domestic politics It shows that the success of these projects relies on African political championship and that they are used to demonstrate rulers legitimacy
