Configuring SAP General Ledger Accounting Narayanan Veeriah, 2020-08-27 This book on Configuring SAP General Ledger Accounting in SAP S/4HANA Finance covers configuring your SAP system for making use of the important functional areas of SAP General Ledger G/L Accounting. As with my other books on SAP, this book also follows a case study approach to make your learning easy. Efforts have been taken throughout the book to guide you step by step in understanding how to configure your SAP system to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots from an SAP system and illustrations to help you see what is being discussed in that activity step. You will see a lot of additional information provided across the Chapters and the Sections to help you comprehend a topic or a configuration setting or a concept better. The entire content of the book, via various Chapters, has been presented as in SAP IMG Implementation Guide for easy reference. You will come across with appropriate menu paths and Transactions to help you to navigate the various activities. The coverage includes Case Study SAP General Ledger Accounting Overview, Features, Functionalities, Pre-requisites for Configuring SAP G/L Accounting Master Data, Business Transactions, Periodic Processing, Preparation for Productive Start, Information System. The book starts with a case study setting up the tone for further discussions, outlining the various business processes that you will be configuring towards implementing SAP G/L Accounting for your business. You will come across with the case study brief per configuration activity step in each Chapter. We discuss the overview of SAP G/L Accounting before moving on to discuss its important features and functionalities. You will learn about extensibility, ledger concept, document splitting, parallel accounting, segment reporting, fast close, and integration of SAP FI with SAP Controlling. We then move on to discuss the pre-requisites for configuring SAP G/L Accounting. Here you will learn about the important FI general settings and also on how to configure the fields, ledgers, and currencies. You will learn more about parallel accounting and the FI integration with CO. While on G/L master data, we discuss the G/L account master data, the profit center master data, and segment master data. We bring out in detail the preparations that you need to make for creating these master data, besides elaborating their creation and processing. You will then be taken to learn about the functionality as well as the configuration of G/L business transactions, including document splitting, open item clearing, bank account interest calculation, and adjustment posting reversal. In periodic processing for G/L, you will learn about the various closing operations like check count, value reclassify, allocation, and carry forward. We then discuss

the preparations that you need to make for productive start of SAP G L Accounting system You will learn about the preparations in detail for new implementation as well as for migration from an existing non HANA SAP system Finally towards the end we discuss the G L information system You will learn about the various G L reports that are available for your business including the drilldown reports and reports created with Report Painter Report Writer In all you can use this book as a desktop reference or a refresher for configuring SAP G L Accounting As the Chapters have been progressively elaborated you will find the book very informative and easy to read **The Green Sheet** ,2004 Literature on Information Retrieval and Machine Translation Charles F.
