What Is Cool?

No one can truly understand the sensation of jumping directly onto a turtle, but this is just one of many characteristics bestowed upon the main character in the book *Super Plumber Guy*. The book depicts a brightly lit world of wonder, fungi, and amphibians in varying biomes. While the main character, Mr. Plumber, is depicted as an everyman, his distinct look, style, and behaviors as described in the book show that he is anything but.

Mr. Plumber was originally written as something of an everyday character that the reader could embody. He has no true personality, nor does he have a voice, often allowing secondary characters around him to fill in the gaps. The reader does know that he wears a brightly colored hat, jumps high, and enjoys mushrooms. These are humble characteristics that bring out the humanity of the character. Most people are not a list of unique characteristics but a mosaic of smaller idiosyncrasies.

Super Plumber Guy remains a popular read containing a human character that many might consider boring or free of personality. However, Mr. Plumber is an exceedingly human character who acts as a blank slate for the reader. Diving deeper into other characters and their interactions with him may glean further insight into Mr. Plumber's motivations and inner psychology.

Words that Count: A Guide to Writing Analytical Essays about Fiction Kate Sheckler, 2019-01-01 Language is complex Written or spoken the complexity of language makes the medium the versatile tool we need but also creates the potential for a wide variety of misunderstandings and mistakes Whether we are attempting to understand a piece of fiction or writing a text to make our thoughts comprehensible to others the complexity of language is both necessary and fraught That said the inevitable pitfalls don't mean we need to sacrifice precision or accuracy This guide is a step by step process that offers hands on methods for accurate analysis and precise essay construction Chapter one deals with a variety of methods by which to approach stories and novels such that your analysis is structured on carefully constructed logical progression founded on the primary text rather than on hunches and guesswork and chapter two offers infrastructures and scaffolding on which any essay can be structured The structures included in chapter two are not a template and thus do not limit style or content rather they are based on a series of tasks that must be completed for an argument to be convincing As such the tasks offer a kind of map through the process of essay writing that always indicates your next step Contrary to accepted mythologies about analyzing fiction and writing essays neither is a guessing game and this text can help you remove the guesswork from your own process
