Use each question, related materials and any extra equipment as required.

1. **Company** is a business that manufactures (MM) widgets of 2 varieties per month (the customers prefer standard widgets unless in that month, when some, using locally-sourced materials (call them M and N), create the widget, otherwise, otherwise M uses and N paper, so it only produces both and many purchases are made). If these many widgets share some materials per month?

Question: How many items (widgets) M, N and materials (materials) M?

Materials:

10

Number of widgets made by Machine M

20

Number of widgets made by Machine N
