A Revised Correlation of Ordovician Rocks in the British Isles Richard A. Fortey, 2000 This Report is revised and expanded from the 1972 publication providing an up to the minute account of the British Ordovician formations and their correlation nationally and internationally It also includes the most comprehensive treatment of Ireland ever attempted The reference list is a comprehensive bibliography of papers on the subject published since 1970 This Special Report will be a valuable reference for research and applied geoscientists working with rocks of Ordovician age It will be of particular interest to those working in or visiting the Welsh mountains and the English Lake District **BOOK JACKET** *The BIRPS Atlas* Simon L. Chapman, 1998 It has long been an article of faith that the census of 1841 was the first British census to list the names of individuals In nearly 90 pages of text accompanied by unique notes and references to original documents Mr Chapman explodes this myth by describing hundreds of pre 1841 name lists censuses poll lists national surveys tax lists parish enumerations etc explaining most of them as far as possible in their historical framework As logic would dictate the work follows a chronological pattern and for this new fifth edition the author has appended in Appendix I a county by county breakdown of the various censuses containing individuals names with the dates of those censuses and for completeness in Appendix II he has added a list of decennial censuses containing names of individuals from 1801 to 1831 This new fifth edition completely rewritten incorporates over 200 additional listings for Ireland making it a unique chronological account of censuses and enumerations in the British Isles from 1086 to 1841 Publisher's description *The Academy*, 1876 *The Bibliographer's Manual of English Literature* William Thomas Lowndes, 1860 *The Statesman's Year-Book* M. translation and the Queen's College Oxford English translation which has been hitherto overlooked by scholars Alessandra Petrini begins with an overview of the circulation and readership of Machiavelli in early modern Britain before focusing on the eight surviving manuscripts She reconstructs each manuscript's history and the afterlife of the translations before moving to a detailed examination of two of the translations Petrini's investigation of William Fowler's translation takes into account his biography in order to understand the Machiavellian influence on early modern political thought Her study of the Queen's College translation analyses the manuscript's provenance as well as technical details including writing and paper quality Importantly this book includes annotated editions of both translations which compare the texts with the original Italian versions as well as French and Latin versions With this volume Petrini has compiled an important reference source offering easy access to little known translations and shedding light on a community of readers and scholars who were fascinated by Machiavelli despite political or religious opinion *The Entomologist's Monthly Magazine*, 1909 **The Athenaeum**, 1850 *Educational Times*, 1893 **World Metric Standardization** World Metric Standardization Council, 1922 **Fair and Unfair Trials in the British Isles, 1800-1940** David Nash, Anne-Marie Kilday, 2020-11-12 Adopting a microhistory approach Fair and Unfair Trials in the British Isles 1800 1940 provides an in depth examination of the evolution of the modern justice system Drawing upon criminal cases and trials from England Scotland and Ireland the book examines the errors procedural systems and the ways in which adverse influences of social and cultural forces impacted upon individual instances of justice The book investigates several case studies of both justice and injustice which prompted the development of forensic toxicology the implementation of state propaganda and an increased interest in press sensationalism One such case study considers the trial of William Sheen who was prosecuted and later acquitted of the murder of his infant child at the Old Bailey in 1827 an extraordinary miscarriage of justice that prompted outrage amongst the general public Other case studies include trials for treason theft obscenity and blasphemy Nash and Kilday root each of these cases within their relevant historical cultural and political contexts highlighting changing attitudes to popular culture public criticism protest and activism as significant factors in the transformation of the criminal trial and the British judicial system as a whole Drawing upon a wealth of primary sources including legal records newspaper articles and photographs this book provides a unique insight into the evolution of modern criminal justice in Britain **The Idea of Anglo-Saxon England 1066-1901** John D. Niles, 2015-09-28 The Idea of Anglo Saxon England 1066 1901 presents the first systematic review of the ways in which Anglo Saxon studies have evolved from their beginnings to the twentieth century Tells the story of how the idea of Anglo Saxon England evolved from the Anglo Saxons themselves to the Victorians serving as a myth of origins for the English people their language and some of their most cherished institutions Combines original research with established scholarship to reveal how current conceptions of English identity might be very different if it were not for the discovery and invention of the Anglo Saxon past Reveals how documents dating from the Anglo Saxon era have greatly influenced modern
