service of Farfa's power and prestige Equally fascinating is Boynton's examination of the process by which Farfa like other monasteries cathedral chapters and royal houses constantly rewrote its history particularly the stories of its founding as part of the continuous negotiation of power that was central to medieval politics and culture *New York Magazine*, 1978-01-23

Exile and Restoration Revisited Gary N. Knoppers, Lester L. Grabbe, 2011-10-20 This volume had its origins in a session presented to the Society of Biblical Literature in Washington in 2006 in order to examine the legacy of Peter Ackroyd to the field of biblical studies Ackroyd's work stretched over a wide range of topics within Biblical Studies notably study of prophetic literature and work on exile and restoration This volume particularly focuses upon his work on the latter Whilst the present work is founded upon the papers given at the session it also includes several essays solicited subsequently which further serve to draw the contributions together into a fitting tribute to a pioneer in his field The contributions take account of Ackroyd's approach to the theme of exile and restoration focusing largely upon the study of Ezra Nehemiah and Chronicles As a brief flavour Bob Becking examines the epigraphic evidence concerning the mixed marriage crisis Ezra Nehemiah Joe Blenkinsopp seeks to find the Sons of Aaron before the 5th Century in a fascinating essay focusing which picks up the work of R H Kennett over a century ago Among the other distinguished contributors are John Bergsma Eric Myers and Jill Middlemass

Musical Debate and Political Culture in France, 1700-1830 Robert James Arnold, 2017 The first full length treatment of the operatic querelles in eighteenth century France placing individual querelles in historical context and tracing common themes of authority national prestige and the power of music over popular sentiment Fighting Identity Michael Vlahos, 2008-12-30 This work highlights a national ethos infused by a sacred narrative of divine mission This deep association leads to a narrow approach to conflict relationships built around an Us vs Them distance from the enemy in which their submission is achieved through kinetic effects and their subsequent redemption through our good works reconstruction Vlahos contends that America's difficult engagement in the Muslim world demonstrates urgently that different operational approaches and tactics like counterinsurgency are not enough Alternative paradigms of strategic engagement are needed but their very consideration requires deeper cultural rethinking about how we assess world change and other cultures and how our national ethos makes war Why are terrorists and insurgents we fight so formidable Their strength and our vulnerability is in identity Clausewitz knew that Geist spirit was always stronger than the material identity is power in war But how can non state actors face up to nation states The answer is in globalization This is the West's 3rd globalization Two centuries of intense mixing has torn down old ways of life and created a growing demand for new belonging There is also a decline in US

universalism America's vision as history's anointed prophet and manager is now competing head to head with renewed universal visions Like Late Antiquity and the High Middle Ages our globalization begins to subside We may be in the later days of American modernity We can see this worldwide as emerging local communities within states and meta movements find their voice through conflict and war Identities struggling for realization are always the most powerful Add the diffusion of new technology and new practice and even the poorest and seemingly most primitive group can now make war against those on high They are successful because of a symbiotic fit between old states and new identities Increasingly old societies no longer find identity celebration in war while non state identities embrace the struggle for realization Hence non state wars with America become a mythic narrative for them Our engagement actually helps them realize identity and we become the midwife This book offers another path to deal with non state challenges one that does not further weaken us **New York Magazine** ,1978-01-16 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **Musical Biography** JolantaT. Pekacz,2017-07-05 Musical biography has rarely been an object of theoretical and methodological reflection Our present day perception of the lives of prominent composers and performers of the past has been largely formed by cultural and political assumptions of nineteenth century biographers and their twentieth century followers While older biographies are being scrutinized for veracity and updated with new evidence their historiographical premisses and narrative techniques remain largely unchallenged The epistemological upheavals in the humanities since the 1960s have generated a body of theoretical thought that has undermined many of the assumptions of traditional biography Consequently many of these assumptions have lost their hold as viable underpinnings for present day scholarly biography For example the accumulation of facts is no longer believed to bring us closer to an understanding of the subject nor are the traditional views of the unified self and the self as a foundational idea taken for granted This volume brings together musicologists and historians who explore through individual case studies the rich potential of these new theories for writing musical lives The authors of this volume examine how the insights provided by these theories illuminate our critical reassessment of older biographies and the interpretations of musical works these biographies were used to construe and help forge new approaches to musical biography The authors also explore the functions musical biographies served in different historical contexts the relevance of biography for musical criticism the reliability of archival evidence the ethics of biography the demands placed on biography by feminist and gender history and the new possibilities offered by cinema The contributors to this volume challenge the view that biography has little importance for music history analysis and criticism Collectively they reassert biography's centrality and relevance and dem **New York Magazine** ,1977-11-28 New York
