The Spark and the Grind Erik Wahl, 2017-03-07 We've been conditioned to think about creative genius as a dichotomy dreamers versus doers creativity versus discipline the spark versus the grind But what if we're wrong What if it's the spark and the grind We love people whose creative genius arrives in sudden sparks of inspiration Think of Archimedes in his bathtub or Newton under his apple tree But we also admire people who work incredibly hard and long for their creative breakthroughs Think of Edison in his lab grinding through hundreds of failed variations on the lightbulb We remember his words in tough times Genius is 1 percent inspiration 99 percent perspiration Now Erik Wahl a visual artist speaker and entrepreneur helps us unite the yin and yang of creativity the dynamic new ideas with the dogged effort He shows why we won't get far if we rely on the spark without the grind or the grind without the spark What the world really needs are the creators who can hold the two in balance Fortunately it's possible to get good at both as Wahl knows from experience After his corporate career suddenly ended he pursued a spark to paint photorealistic portraits and ground it out until he got good enough to make very good art very quickly That's the basis of his riveting live shows which have captivated skeptical audiences who never expected to be inspired by art and taught them to embrace creativity in a whole new way This book offers surprising insights and practical advice about how to fan the sparks and make the grind more productive Wahl deftly synthesizes the wisdom of other artists philosophers scientists and business visionaries throughout history along with his own views Here's how he sums up his approach The world needs people who enjoy swimming in ideas until they discover a great one The world also needs doers who have a gift for activation a.k.a. getting things done But the most potent individual creators in any industry or environment have learned how to be both They've learned how to spark their grind and they've learned how to grind their sparks As a result they not only make things happen they make great things If you want to ensure constant creativity in your life and produce your most innovative work this is your guide
