Television in Black-and-white America Alan Nadel, 2005 La couverture indique Alan Nadel's new book reminds us that most of the images on early TV were decidedly Caucasian and directed at predominantly white audiences Television did not invent whiteness for America but it did reinforce it as the norm particularly during the Cold War years Nadel now shows just how instrumental it was in constructing a narrow conservative and very white vision of America During this era prime time TV was dominated by adult Westerns with heroes like The Rebel's Johnny Yuma reincarnating Southern values and Bonanza's Cartwright family reinforcing the notion of white patriarchy programs that Nadel shows bristled with Cold War messages even as they spoke to the nation's mythology America had become visually reconfigured as a vast Ponderosa crisscrossed by concrete highways designed to carry suburban white drivers beyond the moral challenge of racism racial poverty and increasingly vocal civil rights demands

Television in America Michael D. Murray, Donald G. Godfrey, 1997. Television in America examines the history of the industry from a local station perspective. Some interesting ramifications are: What would have happened to the ABC network without the support of its key station WABC? What effect did KSL television have on the Mormon Church communication empire? Can stations in Atlanta and Orlando be credited with promoting a civil rights agenda before it was politically correct? Would the Kefauver hearings have taken on as much national significance had it not been for the local coverage of WMAL-TV? Without the efforts of WEW's Dorothy Fieldheim and Nancy Craig at WABC, would women have been welcomed in the nation's newsrooms? The histories of the 20 television stations in this unique collection help answer these questions and set the stage for further inquiry.

The origins and evolution of the major institutions in the United States for noncommercial radio and television are explored in this unique volume. Ralph Engelman examines the politics behind the development of National Public Radio, Radio Pacifica and the Public Broadcasting Service. He traces the changing social forces that converged to launch and shape these institutions from the Second World War to the present day. The book challenges several commonly held beliefs, including that the mass media is simply a manipulative tool, and concludes that public broadcasting has an enormous potential as an emancipatory vehicle.
