The Santa Fe Magazine ,1928 Age, Gender and Sexuality through the Life Course Susan Pickard,2018-04-19 Age Gender and Sexuality through the Life Course argues that the gendered structure of temporality defined in the dual sense of everyday time as well as age and stage of life is a key factor underpinning the stalling of the gender revolution Taking as its central focus the idealised young woman who serves as the mascot of contemporary success this book demonstrates how the celebration of the Girl is i representative of social mobility educational and professional achievement ii possesses diligence docility and emotional intelligence and iii displays a reassuring sexuality and youthfulness but is constructed from the outset to have a fleetingly short life span Pickard undertakes a theoretical and empirical exploration of the contemporary female experience of education work motherhood sexuality the challenge of having it all Furthermore through additional analysis of the transitional reproductive regime from youth into mid life and beyond this insightful monograph aims to demonstrate how age and time set very clear limits to what is possible and desirable for the female self yet how the latter factors also if used reflexively can provide the key means of

resisting and challenging patriarchy This book is aimed at a broad interdisciplinary audience located in gender studies age studies culture studies sociology and psychology accessible for advanced undergraduates and beyond
