Photography and Making Bedouin Histories in the Naqab, 1906-2013 Emilie Le Febvre,2023-12-22 Introducing a novel anthropological study of photography in the Middle East Emilie Le Febvre takes us to the Naqab Desert where Bedouin use photographs to make and respond to their own histories She argues Bedouin presentations of the past are selective but increasingly reliant on archival documents such as photographs which spokespersons treat as evidence of their local histories amid escalating tensions in Israel These practices shape Bedouin visual historicity that is the diverse ways people produce their pasts in the present with images This book charts these processes through the afterlives of six photographs c 1906 2013 as they circulate between the Naqab s entangled visual economies a transregional landscape organised by cultural ideals of proximity and assemblages of Bedouin iconography Le Febvre illustrates how representational contentions associated with tribal civic and Palestinian Israeli politics influence how images do history work in this society She concludes Bedouin visual historicity is defined by acts of persuasion during which photographs authenticate alternating history projects Here Bedouin

value photographs not because they evidence singular narratives of the past Rather the knowledges inscribed by photography are multifarious as they support diverse constructions of history and society with which members mediate a wide range of relationships in southern Israel This book bridges studies of anthropology photography Palestinian Israeli politics and Bedouin Middle East history **The English Catalogue of Books** ,1914 **An Introduction to the Grammar of English** Elly van Gelderen,2010-01-01 It has been eight years since An Introduction to the Grammar of English was first published The second edition is completely revised and greatly expanded especially where texts example sentences exercises and cartoons are concerned It continues to provide a very lively and clearly written textbook The book introduces basic concepts of grammar in a format which inspires the reader to use linguistic arguments The style of the book is engaging and examples from poetry jokes and puns illustrate grammatical concepts The focus is on syntactic analysis and evidence However special topic sections contribute sociolinguistic and historical reasons behind prescriptive rules such as the bans on split infinitives dangling participles and preposition stranding The book is written for undergraduate students and structured for a semester long course It provides exercises keys to those exercises and sample exams It also includes a comprehensive glossary A basic website will be kept up at <http://www.public.asu.edu/gelderen/grammar.htm> *Catalogue* Wells, Edgar H. & Co,1923
