The Technician A Novel Of Polity:

The Technician Neal Asher, 2011-02-04 In Neal Asher's *The Technician* the Theocracy has been dead for twenty years and the Polity rules on Masada but it is an order that the rebels of the Tidy Squad cannot accept and the iconic Jeremiah Tombs is top of their hitlist. Its secrets could mean our survival. On the savage planet of Masada one of the native aliens is spreading terror through the human population. It creates sculptures from its victims remains earning it its nickname the Technician. And only Jeremiah Tombs has survived an encounter. This sent him mad but he may have learned something key to humanity's survival if he lives to remember it. Jeremiah was a member of a brutal regime now deposed and a radical sect still wants its revenge. The Technician buried something in Jeremiah's mind about the alien Atheter, an entire race that committed suicide. However, in seeking to understand their disappearance we may somehow be attracting the same fate. And to unlock Jeremiah's secrets Polity operatives must keep him alive.

The Line of Polity Neal Asher, 2013-12-18 Outlink station Miranda has been destroyed by a nanomycelium and the very nature of this sabotage suggests that the alien bioconstruct Dragon, a creature as untrustworthy as it is gigantic, is somehow involved. Sent out on a titanic Polity dreadnought the Occam Razor agent Cormac must investigate the disaster. Meanwhile on the remote planet Masada the long term rebellion can never rise above ground as the slave population is subjugated by orbital laser arrays controlled by the Theocracy in their cylinder worlds and by the fact that they cannot safely leave their labour compounds. For the wilderness of Masada lacks breathable air and out there roam monstrous predators called hooders and siluroynes, not to mention the weird and terrible gabbleducks.

The Technician Neal Asher, 2013-11-08 The Theocracy has been dead for twenty years and the Polity rules on Masada but it is an order that the rebels of the Tidy Squad cannot accept and the iconic Jeremiah Tombs is top of their hitlist. Tombs meanwhile has escaped his sanatorium. His insanity must be cured because the near mythical hooder called the Technician that attacked him all those years ago did something to his mind. Even the AIs fail to understand. Tombs might possess information about the suicide of an entire alien race. It's up to the war drone Amistad to discover this information with the help of an ex-rebel Commander, the black AI Penny Royal and the amphidapt Chanter. Meanwhile in deep space the mechanism the Atheter used to reduce themselves to animals stirs from slumber and begins to power up its weapons.

Polity Agent Neal Asher, 2013-12-10 From 800 years in the future a runcible gate is opened into the Polity and those coming through it have been sent specially to take the alien Maker back to its home civilization in the Small Magellanic cloud. Once these refugees are safely through the gate itself is rapidly shut down because something alien is pursuing them. The gate is then dumped into a nearby sun. From those refugees who get through agent Cormac learns that the Maker civilization has been destroyed by a pernicious virus known as the Jain technology. This of course raised questions why was Dragon, a massive bioconstruct of the Makers, really sent to the Polity? Why did a Jain node suddenly end up in the hands of someone who could do the most damage with it? Meanwhile an entity called the Legate is distributing pernicious Jain nodes and a renegade

Jack Four Neal Asher, 2021-06-10 This high-octane adventure is set in the same world as Neal Asher's acclaimed Polity universe. It's a thrilling, fast-paced standalone novel perfect for fans of Alastair Reynolds and Stephen Baxter. Created to die, determined to live, Jack Four, one of twenty human clones, has been created to be sold. His purchasers are the alien prador, and they only want him for their experimentation program. But there is something different about Jack. No clone should possess the knowledge that's been loaded into his mind. And no normal citizen of humanity's Polity worlds would have this information. The prador's king has been mutated by the Spatterjay virus into a creature even more monstrous than the prador themselves. And his children, the King's Guard, have undergone similar changes. They were infected by the virus during the last humans versus prador war, now lapsed into an uneasy truce. But the prador are always looking for new weapons, and their experimentation program might give them the edge they seek. Suzeal trades human slaves out of the Stratogaster Space Station, re-engineering them to serve the prador. She thinks the rewards are worth the risks, but all that is about to change. The Station was once a zoo containing monsters from across known space. All the monsters now dwell on the planet below, but they aren't as contained as they seem. And a vengeful clone may be the worst danger of all. Neal Asher's books are like an adrenaline shot targeted directly for the brain. On a mission to find a brighter future for humanity, ex-soldier Ursula fosters a colony on the hostile planet Threpsis. Here, survival isn't a given, and colonists thrive without their AI guidance. But when deadly alien raptors appear, Ursula and her companions find themselves forced to adapt in unprecedented ways. And they will be pushed to the very brink of what it means to be human. Further indiscriminate attacks attract the Polity's most dangerous individuals. Mr Crane, a brass killing machine, seeks vengeance. Spear had been trapped on a world surrounded by hostile Prador forces, but Penny Royal, the AI inside the rescue ship sent to provide backup, turned rogue, annihilating friendly forces in a frenzy of destruction and killing Spear. One hundred years later, the AI is still on the loose, and Spear vows for revenge at any cost. Isobel Satomi ran a successful crime syndicate, but after competitors attacked, she needed power and protection. Negotiating with Penny Royal, she got more than she bargained for. Turning part AI herself, she gave Isobel frightening power, but the upgrades hid a horrifying secret, and the dark AI triggered a transformation that has been turning her into something far from human. Spear hires Isobel to track Penny Royal across worlds to its last known whereabouts. But he cheats her in the process and quickly finds himself in her crosshairs. As Isobel continues to evolve into a monstrous predator, it's clear her rage will eventually win out over reason. Will Spear finish his hunt before he himself becomes the hunted?

Prador Moon Neal L. Asher, 2007 The Polity Collective, which benignly rules numerous star systems, has come up against a chilling opponent. The crablike Prador are bloodthirsty aliens bent on crushing the Polity and stealing its runcible technology, and they possess a frightening superiority in space warfare. Two wild card humans, a vengeance-driven soldier and a runcible technician, must now combine their talents in an attempt to stop a seemingly invincible Prador warship from incinerating yet another Polity world.
