

SET UP THE INFOVUE PRO PLAYER

To install the Infiniti Air Filter in a well - use the keys to hold the sensor in place

Plug the Individual Player Pro HDMI output into the Golden HDMI Detective Plus HDMI input as shown. Then optionally plug the Golden HDMI Detective Plus HDMI Output into an HDMI monitor for monitoring purposes.

Please do NOT connect the power supply to the system directly. This will cause it to malfunction.

The Golden HDAM Detective Plus simulates an HDAM monitor being connected to your hi-fi/PC player at all times to prevent any interruptions to the IF streaming output when the display used for monitoring is unplugged or turned off. It also allows you to run the player headless (without a monitor) and still support the IF streaming output. If you are not using the IF output and are just using the HDAM output to feed a fixed display or recorder, the Golden is not required, but still recommended.
