Fandom as Methodology Catherine Grant, Kate Random Love, 2019-12-03. An illustrated exploration of fandom that combines academic essays with artist pages and experimental texts. Fandom as Methodology examines fandom as a set of practices for approaching and writing about art. The collection includes experimental texts, autobiography, fiction, and new academic perspectives on fandom in and as art. Key to the idea of fandom as methodology is a focus on the potential for fandom in art to create oppositional spaces, communities, and practices, particularly from queer perspectives but also through transnational feminist and artist-of-color fandoms. The book provides a range of examples of artists and writers working in this vein, as well as academic essays that explore the ways in which fandom can be theorized as a methodology for art practice and art history. Fandom as Methodology proposes that many artists and art writers already draw on affective strategies found in fandom. With the current focus in many areas of art history, art writing, and performance studies around affective engagement with artworks and imaginative potentials, fandom is a key methodology that has yet to be explored. Interwoven into the academic essays are lavishly designed artist pages in which artists offer an introduction to their use of fandom as methodology. Contributors: Taylor J. Acosta, Catherine Grant, Dominic Johnson, Kate Random Love, Maud Lavin, Owen G. Parry, Alice Butler, Soojin Lee, Jenny Lin, Judy Batalion, Ika Willis. Artists featured in the artist pages: Jeremy Deller, Ego Agha, Iwona Janak, Anna Bunting, Branch Maria Fusco, Cathy Lomax, Kamau Amu, Patton Holly Pester, Dawn Mellor, Michelle Williams, Gamaker. The Women of Colour Index Reading Group, Liv Wynter, Zhiyuan Yang.

Sex Objects Jennifer Doyle,2006 The declaration that a work of art is about sex is often announced to the public as a scandal after which there is nothing else to say about the work or the artist controversy concludes a conversation when instead it should begin a new one Moving beyond debates about pornography and censorship Jennifer Doyle shows us that sex in art is as diverse as sex in everyday life exciting ordinary emotional traumatic embarrassing funny even profoundly boring Sex Objects examines the reception and frequent misunderstanding of highly sexualized images words and performances In chapters on the boring parts of Moby Dick the scandals that dogged the painter Thomas Eakins the role of women in Andy Warhol s Factory films bad sex and Tracey Emin s crudely evocative line drawings and L A artist Vaginal Davis s pornographic parodies of Vanessa Beecroft s performances Sex Objects challenges simplistic readings of sexualized art and instead investigates what such works can tell us about the nature of desire In Sex

Objects Doyle offers a creative and original exploration of how and where art and sex connect arguing that to proclaim a piece of art about sex reveals surprisingly little about the work the artist or the spectator Deftly interweaving anecdotal and personal writing with critical feminist and queer theory she reimagines the relationship between sex and art in order to better understand how the two meet and why it matters Jennifer Doyle is associate professor of English at the University of California Riverside She is coeditor with Jonathan Flatley and Jos Esteban Muoz of *Pop Out Queer Warhol* [The Army Lawyer](#), 2011-05 **Museum Handbook** United States. Schizophrenia is a playful and emphatically practical elaboration of the major collaborative work of the French philosophers Gilles Deleuze and Felix Guattari. When read along with its rigorous textual notes, the book also becomes the richest scholarly treatment of Deleuze's entire philosophical oeuvre available in any language. Finally, the dozens of explicit examples that Brian Massumi furnishes from contemporary artistic, scientific, and popular urban culture make the book an important, perhaps even central, text within current debates on postmodern culture and politics. Capitalism and Schizophrenia is the general title for two books published a decade apart. The first, *Anti-Oedipus*, was a reaction to the events of May/June 1968; it is a critique of state, happy Marxism, and school building strains of psychoanalysis. The second, *A Thousand Plateaus*, is an attempt at a positive statement of the sort of nomad philosophy Deleuze and Guattari propose as an alternative to state philosophy.
