All You Need Is Less Madeleine Somerville,2014-04-21 Most eco friendly books start with terror inducing lists of the carcinogenic chemicals you are liberally slathering all over every single surface in your house painting most people as as unwitting eco villains happily Lysol ing your way straight to hell Well readers can just relax and unpack the plastic bags no guilt trips today At this point I think we all know that cleaning with bleach is bad and pop cans should go into the recycling we re beyond that yes *All You Need is Less* is about realistically adopting an eco friendly lifestyle without either losing your mind from the soul destroying guilt of using a plastic bag because you forgot your reusable ones in the trunk of your car again or becoming a preachy know it all whom everyone loathes from the tips of her organically shampooed hair to the toes of her naturally sourced recycled sandals It s all gotten kind of complicated hasn t it These days you re not green enough unless you quit your day job and devote your entire life to attaining an entirely carbon neutral lifestyle or throw out all of your possessions and replace them with their new green alternatives This whole eco friendly thing seems to have devolved into a horrific cycle of guilt shaming and one upping and as a result people are becoming exhausted and getting annoyed and oh my god we are living in a world where one of my grocery bags says This reusable bag makes me better than you It doesn t have to be this way It is possible to take easy baby steps towards a more earth friendly lifestyle without stress guilt or judgy eco shaming Top eco blogger Madeleine Somerville is here with really original ideas on how to save money and the planet Her ideas are even fun Somerville has emerged as the voice of reason on urban homesteading that is stress free sanity based and above all do able From the book *Stop Using Disgusting Dryer Sheets* Do y all know that most dryer sheets coat use animal fats to coat your clothes with that fresh fragrance Yeah It s disgusting Switch to wool dryer balls they re simple to make plus a fun craft project for kids and they work like a hot damn Use Jars Instead of Travel Mugs 1 You can screw on the lid and literally throw a jar full o coffee into your purse no more balancing keys coffee files etc 2 It takes immense resources to manufacture and sell all those plastic metal travel mugs which are often lost forgotten You have old food jars hanging around anyway why not make use of them If they break or get lost at least they were used one more time before reaching their final destination I always get lots of compliments on my coffee jar
