Curriculum Development and Online Instruction for the 21st Century Fudge, Tamara Phillips, Ferebee, Susan Shepherd, 2021-06-25 The world of education has undergone major changes within the last year that have pushed online

instruction to the forefront of learning Thanks to the COVID 19 pandemic online learning has become paramount to the continued and uninterrupted teaching of students and has forced students and teachers alike to adjust to an online learning environment Though some have already returned to the traditional classroom or plan to very soon others have begun to appreciate the value of online education initiatives that had previously been discussed but never acted upon as they have been in the past year With plenty of positive and negative aspects online learning is a complex issue with numerous factors to consider It is an issue that must be studied and examined in order to improve in the future Curriculum Development and Online Instruction for the 21st Century examines the issues and difficulties of online teaching and learning as well as potential solutions and best practices This book includes an examination on the value of teaching fully via the internet as well as the challenges inherent in the training of teachers to teach in online environments While addressing key elements of remote learning such as keeping student data safe as well as methods in which to engage students this book covers topics that include assessment tools teaching deaf students web technology and standardized curricula Ideal for K 12 teachers college faculty curriculum developers instructional designers educational software developers administrators academicians researchers and students this book provides a thorough overview of online education and the benefits and issues that accompany it Pushing our Understanding of Diversity in Organizations Eden B. King,Quinetta Roberson,Mikki R.

Hebl,2020-02-01 Few time periods in the past five decades match the intensity of intergroup conflict that people around the world are currently experiencing Polarized attitudes around various sociopolitical issues such as gender equality and immigration have dominated the media and our lives Furthermore these powerful social dynamics have also impacted the places where we work and intensified existing strains on workers and workplaces To address these issues and improve organizational climates more theories research and collaborations to understand these phenomena are needed The volumes in this series will describe and instigate scholarship that advances our understanding of diversity in organizations This volume features renowned scholars who are unabashedly pushing the field by raising the questions that need to be asked by working on topics that have received far too little research attention and by holding researchers practitioners managers organizations and readers to task for doing what needs to be done to maximize social justice and egalitarian behaviors in the workplace The chapters provoke the status quo in society and in scholarship and in so doing push our understanding of diversity in organizations **Social Memory as a Force for Social and Economic Transformation** Muxe

Nkondo,2023-02-01 This volume of essays is a reflection on social memory as a force for social and economic transformation Written by scholars and organic intellectuals it focuses on the uses of social memory in particular the conflict between the legacies of colonialism and the movement for fundamental change The content addresses both experts and ordinary citizens alike with a view to advancing discourse on where we are right now and how we move on from here to achieve meaningful transformation As scholars and public representatives with a deep understanding of the social economic and political

dynamics of modern history of South Africa the contributors offer their unique perspectives and reflections on history politics economics culture education ethics and the arts as well as the links that bind these aspects into an ecology of ideas and attitudes

Universities as Living Labs for Sustainable Development Walter Leal Filho, Amanda Lange Salvia, Rudi W. Pretorius, Luciana Londero Brandli, Evangelos Manolas, Fatima Alves, Ulisses Azeiteiro, Judy Rogers, Chris Shiel, Arminda Do Paco, 2019-04-30 This book fills an important gap in the literature and presents contributions from scientists and researchers working in the field of sustainable development who have engaged in dynamic approaches to implementing sustainability in higher education It is widely known that universities are key players in terms of the implementation and further development of sustainability with some having the potential of acting as living labs in this rapidly growing field Yet there are virtually no publications that explore the living labs concept as it relates to sustainability and in an integrated manner The aims of this book which is an outcome of the 4th World Symposium on Sustainable Development at Universities WSSD U 2018 held in Malaysia in 2018 are as follows i to document the experiences of universities from all around the world in curriculum innovation research activities and practical projects as they relate to sustainable development at the university level ii to disseminate information ideas and experiences acquired in the execution of projects including successful initiatives and good practice iii to introduce and discuss methodological approaches and projects that seek to integrate the topic of sustainable development in the curricula of universities and iv to promote the scalability of existing and future models from universities as living labs for sustainable development The papers are innovative cross cutting and many reflect practice based experiences some of which may be replicable elsewhere Also this book prepared by the Inter University Sustainable Development Research Programme IUSDRP and the World Sustainable Development Research and Transfer Centre WSD RTC reinforces the role played by universities as living labs for sustainable development

The Internet and the Emerging Importance of New Forms of Intellectual Property Susy Frankel, Daniel Gervais, 2016-05-01 The term intellectual property has come to include numerous intangible rights beyond the traditional Big Three patent trademark and copyright rights that force us to reconsider and maybe also change the object and purpose of intellectual property IP Not only do these rights generally have less solid normative footing and few if any well understood inherent limits but the borders of their misappropriation are hard to draw This groundbreaking book scrutinizes the existence of commonalities in this realm and poses the question of what risks and advantages accrue to such IP or IP like rights Sixteen distinguished contributors offer in depth analyses of such rights as the following trade secrets image and publicity rights geographical indications traditional knowledge protection of databases and sports rights and ambush marketing Recommendations and solutions investigated include the use of specialized courts or judges and of private standards There are also thoughtful considerations of practices such as forum shifting and an analysis of the special value of evolving Chinese law as a norm laboratory Two chapters discuss the complexities of enforcement Enforcement impacts substantive intellectual property and can be said to be its own form of
