The Indigo Children Beth Singler, 2017-09-18 The Indigo Child concept is a contemporary New Age redefinition of self Indigo Children are described in their primary literature as a spiritually psychically and genetically advanced generation Born from the early 1980s the Indigo Children are thought to be here to

usher in a new golden age by changing the world's current social paradigm. However, as they are paradigm busters, they also claim to find it difficult to fit into contemporary society. Indigo Children recount difficult childhoods and school years, and the concept has also been used by members of the community to reinterpret conditions such as Attention Deficit Hyperactive Disorder (ADHD) and autism. Cynics, however, can claim that the Indigo Child concept is an example of special snowflake syndrome, and parodies abound. This book is the fullest introduction to the Indigo Child concept to date. Employing both on and offline ethnographic methods, Beth Singler objectively considers the place of the Indigo Children in contemporary debates around religious identity, self-creation, online participation, conspiracy theories, race, and culture, and definitions of the New Age movement.

End Times Bryan Walsh, 2019-08-27. In this history of extinction and existential risk, a Newsweek and Bloomberg popular science and investigative journalist examines our most dangerous mistakes and explores how we can protect and future-proof our civilization. *End Times* is a compelling work of skilled reportage that peels back the layers of complexity around the unthinkable and inevitable end of humankind. From asteroids and artificial intelligence to volcanic supereruption to nuclear war, veteran science reporter and TIME editor Bryan Walsh provides a stunning panoramic view of the most catastrophic threats to the human race. In *End Times*, Walsh examines threats that emerge from nature and those of our own making: asteroids, supervolcanoes, nuclear war, climate change, disease, pandemics, biotechnology, artificial intelligence, and extraterrestrial intelligence. Walsh details the true probability of these world-ending catastrophes, the impact on our lives were they to happen, and the best strategies for saving ourselves, all pulled from his rigorous and deeply thoughtful reporting and research. Walsh goes into the room with the men and women whose job it is to imagine the unimaginable. He includes interviews with those on the front lines of prevention, actively working to head off existential threats in biotechnology labs and government hubs. Guided by Walsh's evocative, page-turning prose, we follow scientific stars like the asteroid hunters at NASA and the disease detectives on the trail of the next killer virus. Walsh explores the danger of apocalypse in all forms. In the end, it will be the depth of our knowledge, the height of our imagination, and our sheer will to survive that will decide the future.

American Roadkill Don H. Corrigan, 2021-10-25. Slaughtered along our highways, roadkill may be observed regularly but isn't likely to be given much thought. Research scientists, animal rights activists, roadkill artists, writers, ethicists, and lyricists, however, are increasingly sounding the alarm. They report that we are killing the very animals we love and are driving many of them to the brink of extinction. Detailing the death and destruction of mammals, reptiles, amphibians, and insect pollinators, this study examines the ways in which we are thus jeopardizing our own futures. Beginning in the Model T era, biologists counted the common carnage of the time: cottontails, woodchucks, and squirrels, mostly. That record-keeping continues today. Beyond the bleak statistics, zoologists are rerouting migratory paths of animals and are advocating for cat and dog companions. This book illuminates both our successes and failures in keeping animals out of harm's way and what those efforts reflect about ourselves and our capacity to care enough to alter the road ahead.

Education in a

Narcissistic Nation Karen Brackman, Chad Mason, 2014-03-12 In their first edition authors Chad Mason and Karen Brackman examined and explained the difficulties associated with attempting to successfully educate today's often over indulged and narcissistic student population. The proliferation of narcissistic tendencies had consequences reaching every aspect of the educational environment from student achievement to the state of school shootings across the United States. Included in the original edition were signs to observe of narcissistic traits and steps educators could take to alleviate the negative repercussions of students exhibiting those tendencies. The second edition not only reviews many of those same aspects from the first edition but seeks to add additional information based on further research, additional observations of contemporary incidents across the United States and updated strategies educators can utilize when faced with over indulged and narcissistic students who affect their already busy and difficult educational tasks. New material includes a greater in depth examination into the history and growth of narcissism in the United States, the state and federal government's roles in fueling the narcissistic fire and additional material regarding social media's role and how to effectively navigate that medium when educating students. This is a must read book for all educators who work with today's me driven society and parent population. In an easy to read format, Mason and Brackman zero in on the problem, describe the consequences for failing to act and provide practical solutions for those individuals in the educational trenches. **U.S. News & World Report**, 2007

The Church in an Age of Crisis James Emery White, 2012-10-15 Knowing the signs of the times and how then to live as people of faith has never been more pressing for the church. Though many of the signs are disturbing, we ignore them at our great peril. Combining the very best attributes of a biblical prophet and a modern day reporter, James Emery White offers a look at twenty-five realities facing the church in the areas of belief, culture, marriage and family, media and technology, and mission and how they affect us as individuals and as a body of believers. Functioning as both a telescope and a microscope, this hard hitting examination of the future of the church looks into the vastness of the world and into the minute recesses of our hearts. White calls on thoughtful readers to sharpen their spiritual drive and determination in order to meet the challenges of our day and the future. He calls us to look beyond the daily conflicts in order to see the much larger war in which we are engaged so that we might play our vital role in preserving and growing Christ's church in the coming age.
