Waterhouse,2013-11-24 Lobbying America tells the story of the political mobilization of American business in the 1970s and 1980s Benjamin Waterhouse traces the rise and ultimate fragmentation of a broad based effort to unify the business community and promote a fiscally conservative antiregulatory and market oriented policy agenda to Congress and the country at large Arguing that business s political involvement was historically distinctive during this period Waterhouse illustrates the changing power and goals of America s top corporate leaders Examining the rise of the Business Roundtable and the revitalization of older business associations such as the National Association of Manufacturers and the U S Chamber of Commerce Waterhouse takes readers inside the mind set of the powerful CEOs who responded to the crises of inflation recession and declining industrial productivity by organizing an effective and disciplined lobbying force By the mid 1970s that coalition transformed the economic power of the capitalist class into a broad reaching political movement with real

policy consequences Ironically the cohesion that characterized organized business failed to survive the ascent of conservative politics during the 1980s and many of the coalition s top goals on regulatory and fiscal policies remained unfulfilled The industrial CEOs who fancied themselves the voice of business found themselves one voice among many vying for influence in an increasingly turbulent and unsettled economic landscape Complicating assumptions that wealthy business leaders naturally get their way in Washington Lobbying America shows how economic and political powers interact in the American democratic system **National Union Catalog** ,1973 *Australian National Bibliography* ,1995 **Educators Guide to Free Social Studies Materials** ,1980 *ENC Focus* ,2001 Kliatt Young Adult Paperback Book Guide ,2001 **Writers Directory** NA NA,2016-03-05 *Teen Book Discussion Groups @ the Library* Constance B.
