This eleventh edition was developed during the encyclopaedia's transition from a British to an American publication. Some of its articles were written by the best known scholars of the time and it is considered to be a landmark encyclopaedia for scholarship and literary style. *The Encyclopaedia Britannica: Submarine Mines-Tom-tom*, 1911. The last great work of the age of reason, the final instance when all human knowledge could be presented with a single point of view. Unabashed optimism and unabashed racism pervades many entries in the 11th and provide its defining characteristics. Despite its occasional ugliness, the reputation of the 11th persists today because of the staggering depth of knowledge contained within its volumes. It is especially strong in its biographical entries. These delve deeply into the history of men and women prominent in their eras who have since been largely forgotten except by the historians and scholars. CAR OWNERSHIP for Women helps you buy right, stay safe and extend the life of your car. In the first chapter, Car Buying, assessing needs, wants and means sets the stage for more effectively negotiating with dealers at auctions and on the Internet. Financing tips include selecting the best terms, lenders and making the right ownership choices. In the second chapter, Car Safety, etiquette when signalling parking and driving are demonstrated in a way that enables smartly managing the hazards associated with today's driving conditions. Handling breakdowns resulting from failure of the car's wheels, engine and transmission save lives and money. In the third chapter, Car Maintenance, care of the car's interior, exterior and its engine are explained. A wise maintenance care program can easily extend the life of the car. Materials, storage space, devices, body, tires, windows, fluids, fuel and engine performance are highlighted in ways you might have otherwise ignored. Understanding GPS/GNSS: Principles and Applications, Third Edition Elliott D. Kaplan, Christopher Hegarty, 2017-05-31. This thoroughly updated third edition of an Artech House bestseller brings together a team of leading experts providing a current and comprehensive treatment of global navigation satellite systems (GNSS) that readers won't find in other resources. Packed with brand new material, this third edition includes new chapters on the system engineering details of GPS, European Galileo system, Chinese Beidou systems, GLONASS and regional systems such as Quasi-Zenith Satellite System (QZSS) and Navigation with Indian Constellation (NavIC). Readers also find new coverage of GNSS receivers, disruptions, errors, stand-alone GNSS performance, differential and precise point positioning. This single source reference provides both a quick overview of GNSS essentials and an in-depth treatment of advanced topics and explores all the latest advances in technology, applications and systems. Readers are guided in the development of new applications and on how to evaluate their performance. It explains all the differential GNSS services available to help decide which is best for a particular application. The book discusses the integration of GNSS with other sensors and network.
